**RECOMMENDATION OF THE ILLINOIS ENVIRONMENTAL PROTECTION AGENCY**

The Illinois Environmental Protection Agency ("Illinois EPA") hereby files its Recommendation pursuant to Section 125.204 of the regulations of the Illinois Pollution Control Board ("Board"), 35 Ill. Adm. Code 125.204.

1. On November 16, 2022, the Illinois EPA received a request from Diekemper Pork LLC (Log number TC-147127, Exhibit A) for an Illinois EPA recommendation regarding the tax certification of water pollution control facilities pursuant to 35 Ill. Adm. Code 125.204.
2. The facility's address is: Diekemper Pork LLC  
16070 Varel Road  
Carlyle, Illinois 62231

The proposed water pollution control facilities in this request are located in the NE ¼ of Section 3, T2N, R3W of the West 3rd P.M. in Clinton County, at the above street address and consist of the following agrichemical containment structures:

One (1) concrete livestock waste pit measuring 193 ft. (length) x 101.83 ft. (width) x 8 ft. (depth) with 6 concrete pump out pits approximately 6 ft. (length) x 6 ft. (width) x 8 ft. (depth) and approximately 19,653 sq. ft. of concrete slatted flooring over this manure pit.

These livestock waste management facilities are used to collect, transport and/or store livestock waste prior to cropland application.

3. Section 11-10 of the Property Tax Code, 35 ILCS 200/11-10 (2022), and Section 125.200(a) of the Board's regulations, 35 Ill. Adm. Code 125.200(a), define "pollution control facilities" as:

any system, method, construction, device or appliance appurtenant thereto or any portion of any building or equipment, that is designed, constructed, installed or operated for the primary purpose of: eliminating, preventing, or reducing air or water pollution ...or treating, pretreating, modifying or disposing of any potential solid, liquid or gaseous pollutant which if released without treatment, pretreatment modification or disposal might be harmful, detrimental or offensive to human, plant or animal life, or to property.

4. In order to receive preferential tax treatment as pursuant to 35 ILCS 200/11-5 (2022), pollution control facilities must be certified as such by the Board, 35 ILCS 200/11-20 (2022) and 35 Ill. Adm. Code 125.200(a).
5. Upon receipt of a tax certification application, the Illinois EPA must file a recommendation on the application with the Board, 35 Ill Adm. Code 125.204(a).
6. Based on the information in the application and the purpose of the facility, it is the Illinois EPA's engineering judgment that the described facilities may be considered "pollution control facilities," pursuant to 35 Ill. Adm. Code 125.200(a), with the primary purpose of eliminating, preventing, or reducing water pollution, or as otherwise provided in 35 Ill. Adm. Code 125.200, and are eligible for tax certification from the Board.

WHEREFORE, the Illinois EPA recommends that the Board issue the requested tax certification.

### Memorandum

To: Mike Roubitchek, Division of Legal Counsel

From: Darin E. LeCrone, P.E., Manager, Permit Section, Division of Water Pollution Control, Illinois Environmental Protection Agency *DLE*

Date: APR 11 2023

Re: Diekemper Pork LLC - Carlyle  
Recommendation of Tax Certification  
Log No.: TC-147127  
BOW ID No.: W0278130001  
Property Index Number: 070703200002

The Bureau of Water received a request on November 16, 2022 from Diekemper Pork LLC, having a principal place of business at 17929 Flat Branch Road, Carlyle, IL 62231, for an Illinois EPA recommendation regarding the tax certification of water pollution control facilities pursuant to 35 Il. Adm. Code 125.204. We offer the following recommendation.

The water pollution control facilities in this request include the following:

Diekemper Pork LLC  
16070 Varel Road  
Carlyle, IL 62231 /

NE 1/4 of Section 3, Township 2-North, Range 3-West of the West 3rd PM in Clinton County.

Livestock waste management facilities consisting of:

One (1) concrete livestock waste pit measuring 193 ft. (length) x 101.83 ft. (width) x 8 ft. (depth) with 6 concrete pump out pits approximately 6 ft. (length) x 6 ft. (width) x 8 ft. (depth) and approximately 19,653 sq. ft. of concrete slatted flooring over this manure pit.

These livestock waste management facilities are used to collect, transport and/or store livestock wastes prior to cropland application.

These facilities are further described in the enclosed applications and supporting documents.

Based on the information included in this submittal, it is our engineering judgment that the above proposed facilities may be considered "Pollution Control Facilities" under 35 IAC 125.200(a), with the primary purpose of eliminating, preventing, or reducing water pollution, or as otherwise provided in this section, and therefore eligible for tax certification from the Illinois Pollution Control Board. The Bureau of Water therefore recommends that the Board issue the requested tax certification for these facilities.

If you have any questions regarding the above, please contact Darren Gove at 217/782-0610.

**BOW ID #:** W0278130001

**Project Name:** Diekemper Pork LLC

**Date application received:** 11/16/2022

**Reviewer:** DRG

**Log number:** TC-147127

**Legal Description:**  
NE 1/4 of Section 3 Twp: 2-North Range: 3-West  
PM: West 3rd

**County:** Clinton

**Facility Contact:**

**Phone:** \_618 791-2623

**Pollution Control Facility Type:**  
Swine Livestock Waste Management Facility

**Property ID:** 070703200002

**Applicant:** Diekemper Pork LLC  
17929 Flat Branch Road  
Carlyle, IL 62231

**Facility:** Diekemper Pork LLC  
16070 Varel Road  
Carlyle, IL 62231

**Date Control Devices installed:** Jan 10, 2020

**Application Signature by:** Jason Diekemper

**Title:** Owner

Contents of Application: Old 3-page form, process flow sketch, IDOA NOI to construction application and attachments including maps and 1 structure layout drawing.

Is there a pollutant control flow diagram? **Yes**

Is there sufficient diagrams showing the pollution control facilities? **Yes**

**This facility generates the following pollutants and prevents their discharge as indicated:**

Livestock waste is collected and land applied to cropland.

**Physical description of pollution control facilities that ARE recommended:**

Livestock waste management facilities consisting of:

One (1) concrete livestock waste pit measuring 193 ft. (length) x 101.83 ft. (width) x 8 ft. (depth) with 6 concrete pump out pits approximately 6 ft. (length) x 6 ft. (width) x 8 ft. (depth) and approximately 19,653 sq. ft. of concrete slatted flooring over this manure pit.

These livestock waste management facilities are used to collect, transport and/or store livestock wastes prior to cropland application.

## Application for Certification (Property Tax Treatment) Pollution Control Facility

For Agency Use Only	
File Number: <u>TC-147127</u>	Date Rec'd: <u>11-16-22</u>
Certification Number: _____	Date: _____

Facility Type (check one):  Air  Water

This form is to be used for any application for certification of property tax treatment for a pollution control facility for air or water from the Illinois EPA. Separate applications must be completed for each pollution control facility claimed. Send the application only to the appropriate address listed below. Do not mix types (air and water). Where both air and water operations are related, send applications to each of the addresses.

If attachments are needed, record them consecutively on an index sheet.

**Note:** This form should be completed within Acrobat before being saved, printed, signed, and submitted.

**Air:** Illinois EPA  
Attention: William D. Marr, Permit Section  
Bureau of Air

### II. Facility Information

Facility Location: Quarter Section: NE SEC 3 Township: 2N Range: 3W  
Municipality: \_\_\_\_\_ Township: Wade

Note: A plat map location is requested for facilities located outside of municipal boundaries.

Address: 16070 Varel Road City: Carlyle

State: IL Zip Code: 62231 County: Clinton Book Number: \_\_\_\_\_

Property Index Number: 070703200002 Note: The Property Index Number is the numerical reference used to identify a parcel of real property for assessment and taxation purposes.

### Manufacturing Operations Information

Nature of Operations Conducted at the Above Location

2500 head swine finishing confinement operation. The production site consists of one deep pit barn with dimensions of 101' - 10" x 193' x 8'

### Permit Information

WPC Construction Permit Number: N/A Date Issued: N/A  
 NPDES Permit Number: N/A Date Issued: N/A Exp. Date: N/A  
 APC Construction Permit Number: N/A Date Issued: N/A  
 APC Operating Permit Number: N/A Date Issued: N/A Exp. Date: N/A

Note: Submit copies of all relevant permits issued by local pollution control agencies (e.g. MSD Construction Permit).

*This Agency is authorized to request this information under 415 ILCS 5/4(b)(2012). Disclosure of this information is voluntary and no penalties will result from the failure to provide the information. However, the absence of the information could prevent your application from being processed or could result in denial of your application.*

**Manufacturing Process Information**

Please provide information on the manufacturing process and materials on which pollution control facility is used, including each major piece of equipment associated with the pollution control facility (or low sulfur dioxide emission coal fueled device).

**Description of the Process**

N/A

**Materials Used in the Process**

N/A

**Pollution Control Facility Information**

Please provide a narrative description of the pollution control facility (or low sulfur dioxide emission coal fueled device), and an explanation of why its primary purpose is to eliminate, prevent or reduce pollution. State the type of control facility, as well as a narrative description and a process flow diagram describing the pollution control facility. Include an average analysis of the influent and effluent of the control facility stating the collection efficiency, if applicable.

Describe the Pollution Control Facility (or Low Sulfur Dioxide Emission Coal Fueled Device).

The wean-to-finish barn utilize an underfloor 8 foot deep pit manure storage. The pump out ports are 6' x 6' and all of the flooring for the site is precast concrete. The manure storage facility provides around 12 months of storage. Manure is pumped from the deep pit out to fields where it is applied at agronomic rates. The dimensions of the barn are 105' x 195' x 8'. See attached diagrams.

Describe the Primary Purpose of the Pollution Control Facility (or Low Sulfur Dioxide Emission Coal Fueled Device).

The primary purpose is to contain and store swine manure until it can be applied to crop land. Application is achieved by using a pump with a hose that pulls manure from the manure storages to the tractor that then injects it into the ground at agronomic rates.

Identify the statute or regulation (federal or state), or local ordinance, if any, requiring the installation of the subject pollution control facility (or low sulfur dioxide emission coal fueled device).

The Livestock Management Facilities Act

**Nature of Contaminants or Pollutants**

List air contaminants or water pollution substances released as effluents to the manufacturing processes. Also list the final disposal of any contaminants removed from the manufacturing processes.

Material Retained, Captured or Recovered		
Contaminant or Pollutant	Description	Disposal or Use
Swine Manure	Swine Finishing Manure	Manure applied at agronomic rates by drag line injection

Note: Contaminant or pollutant means that which is removed from the process by the pollution control facility.

**Point(s) of Waste Water Discharge**

Identify the location of the discharge to the receiving stream. This will typically refer to a source of water pollution but can include water-carried wastes from air pollution control facilities.

Plans and Specifications Attached:  Yes  No

Submit Drawings, which clearly show:

- a. Point(s) of discharge to receiving stream; and
- b. Sewers and process piping to and from the control facility.

Are contaminants (or residues) collected by the control facility?  Yes  No

Note: If the collected contaminants are disposed of other than as wastes, state the disposition of the materials, and the value dollars reclaimed by the sale or reuse of the collected substances. State the cost of reclamation and related expense.

**Project Status**

Date Installation Completed: Jan 10, 2020

Provide the date the pollution control facility was first placed into service and operated. If not, explain.

The pollution control facility was first placed into operation on January 10, 2020.

Status of installation on date of application

All facilities in the above pollution control facility description are fully constructed and in services as of January 10, 2020.

**III. Verification and Signature**

The following information is submitted in accordance with the Illinois Property Tax Code, as amended, and to the best of my knowledge is true and correct.

Any person who knowingly makes a false, fictitious, or fraudulent material statement, orally or in writing, to the Illinois EPA commits a Class 4 felony. A second or subsequent offense after conviction is a Class 3 felony. (415 ILCS 5/44(h))

For incorporated entities, signature should be from an authorized corporate representative.

- D) **Names and addresses of the owners, including local, State and federal governments, of the property located within the setback area (both the residence and populated area setback areas) — *\*\* Applicable only to facilities which meet the definition of a "new facility"***

*(LIST HERE AND/OR ATTACH ADDITIONAL SHEETS AS NECESSARY)*

Please see Attachments A & B

E) Distance to the nearest town, residence, occupied residence, non-farm business, and common place of assembly —

Town	<u>Carlyle</u> (name)	<u>8,900</u>	feet
Residence	<u>Mathias J Kluemke Trust</u> (name)	<u>2,730</u>	feet
Occupied residence	<u>Mathias J Kluemke Trust</u> (name)	<u>2,730</u>	feet
Non-Farm business	<u>Winterman Auction Service</u> (name)	<u>4,950</u>	feet
Common place of assembly	<u>Winterman Auction Service</u> (name)	<u>4,950</u>	feet

F) Map or sketch showing the proposed facility and setbacks —  
(CHECK ALL THAT APPLY)

All Facilities

Plat Map,  Topographic Map or  sketch attached.

Please see Attachment C (Plat Map) and Attachment D (Topographic Map)

Locations of all residences, populated areas, non-farm businesses and common places of assembly within or near the setback boundaries have been clearly identified on the map or sketch.

Please See attachment E (Setback Map)

"New Facilities"

Setback distances (both residence and populated area setback distances) have been clearly identified on the map or sketch or in the case of an existing facility, the distances between the proposed construction and the existing facility as well as the distance to nearest residences has been identified.

Please See Attachment E (Setback Map)

"Expansion Facilities"

Plot plan depicting all existing and proposed structures. Plot plan also indicates: the distance from the proposed structure(s) to the existing structure(s), the distance from proposed structure(s) to the owner/operator's residence (if on site), the distance from the proposed structure(s) to the nearest non-owned residence.

G) A statement identifying whether a request for decrease in setbacks, pursuant to (510 ILCS 77/35 (g)), has been sought and whether the request has been granted or denied —  
(CHECK ALL THAT APPLY)

No request for a setback decrease has been sought.

A request(s) for a setback decrease is being submitted to the Illinois Department of Agriculture.

Waiver(s) attached

Waiver(s) not attached

- A request for a setback decrease has been submitted to the Illinois Department of Agriculture and no action relative to its acceptance or denial has been received.
- A request for a setback decrease has been submitted to the Illinois Department of Agriculture and has been granted by the Department.

H) Property owner notification

Within 10 calendar days after receipt of the Department's acknowledgment of setback compliance, owners or operators of "new" livestock management or "new" livestock waste handling facilities *not subject to the public informational meeting process* are required to mail by certified mail, return receipt requested, a copy of the complete notice of intent to construct to the owners of the property located within the setback areas.

Within 10 calendar days after receipt of the Department's notification that all information concerning the notice of intent to construct is complete, owners or operators of "new" livestock management or "new" livestock waste handling facilities *subject to the public informational meeting process* are required to mail by certified mail, return receipt requested, a copy of the complete notice of intent to construct to the owners of the property located within the setback areas.

I, the undersigned, certify that the information contained in this application form is true and correct to the best of my knowledge.
