On February 26th a formal complaint was filed by complainant with the FBI regarding the issues at hand in this case, and its handling by The Hearing Officer and The Board.

- Chief of Police formally condoning constitutional violations by his officers
- Chief of Police formally condoning felonious behavior
- Woodridge Police Officer assisting in felonious behavior while interfering with constitutional rights
- Police department, publicly traded corporations and State Governments participating in and or operating a Continuing Criminal Enterprise
- Acts of intimidation against me and my family
- Threats against me and my family
- Continuing to allow permit holders to rampantly violate laws and then use the resulting circumstances as a defense resulting in dismissal of cases
- Public Official Corruption

The Board is in possession of everything it needs to move forward with a Summary Judgement and initiation of a more formal investigation of the permit records.

As such, any further attempts to waste my time and harass me via a totally irrelevant and invasive deposition will need to wait for the FBI to look into the case and be present. As well as, for me to discuss the matter with the new Speaker of the House of Representatives. A constitutional attorney. The quickest resolution would involve Respondent (A Police Department) being adults and taking responsibility for their actions.

My wife also has not given permission for The Board and their haram of scumbag lawyers to violate our privacy while destroying her career.
