I agree. The board should be dissolved. And cases referred to Law Enforcement. This isn't Nam. There are rules. And the whole world is watching.

In addition to the Respondent, I have filed a Formal Complaint against GW Glenview LLC which is Case #PCB 2021-006 and I have filed no less than nine Informal Complaints against other projects, ongoing and completed, within the Village of Glenview. EVERY one of these projects has a material deficiency in either application or execution.

My desire to file these complaints is an effort to shine a spotlight on the seemingly incomplete effort by all parties to protect our Village, our watersheds, our rivers, lakes, properties (public and private) and citizens. I am NOT seeking to block this project but rather am asking for the proper Stormwater Pollution mitigation efforts under the law.

Finally, if the IEPA is, in fact, ill equipped to handle the current volume of Notices of Intent I would urge the Pollution Control Board to consider asking the United States Environmental Protection Agency to step in and run NPDES Compliance efforts in the State of Illinois as they do for Massachusetts, New Hampshire, New Mexico, District of Columbia, U.S. territories, and on federal and tribal lands.
