And the effects on pur health. Stress levels being raised. Deprived of sleep from noises lead to strokes or heart problems and death. Respiratory difficulties. All affected by air and noise pollution from warehouses. My mother died cause she could not get sleep. My health too has been affected. Cause of warehouses being built down the rd from my mom's house. My boss' respiratory emphysema got worse and turned into COPD cause of intermodal being built across the rd from his house. Trains and trucks in the intermodal and leaving the intermodal all made my boss's health issues got worse from the diesel exhaust and the noise. So he had to sell out and he was not happy leaving the area. Residential roads being made into highways for Truck traffic bringing all the noise and air pollution with it. Houses vibrating from trucks. All bad. I went from having everything and happiness to losing my mom when she died, losing my boss when he sold out and eventually died of his health issues, losing my mom's place cause of development and my greedy brother selling it on me, I lost everything I owned, evicted illegally (never served eviction notice) now I am living in a motel filled with roaches and am miserable as hell. All because of warehouse development

Please docket this for public comment regarding the Proposed Clean Car and Truck Standards: Proposed Section 35 III. Admin. Code 242 and R2024-017.

Thank you for receiving my public comment. I reside in Joliet, zip code 60404. I support the Illinois Pollution Control Board adopting the proposed Clean Car and Truck Standards.

Here are the reasons that I support these rules:

- Justice for warehouse workers
- Truck pollution and noises
- Vibrations from trucks - Shaking + weakening
- Low wages. Costs keep going up but not wages
- Access to housing - Houses being destroyed for Warehouse development. Now there is a housing shortage or people being displaced. More people being homeless cause of

displacement or not being able to pay their bills, losing their license, Secretary of State does not accept motel addresses for our registration or driver's licenses.

- Roads. All deplorable - constant construction everywhere
- Accidents and crimes are way up and have direct relation to warehouse trucks that affect people's lives
- For years we have been ignored here in Joliet
- Joliet is experiencing water shortage
- 70% of what we purchase is delivered in trucks. Most of them are diesel and emit pollution that harms our health especially those of with pre-existing health conditions
- Warehouses have grown by 305% in Senate District 43
- Trucks are idling for hours and releasing pollution
