Subject: [External] R2024-017: Public Comment
Date: Sunday, December 1, 2024 4:41:08 PM

Hello,

I'm Cyatharine Alias a resident in the north suburbs of Chicago. I'm submitting public comment to the PCB in support of the Advanced Clean Trucks (ACT), Advanced Clean Cars II (ACCII), and the Heavy Duty Low NOx Omnibus (HDO) rules. I am someone who lives in a more well off community, not plagued with diesel traffic. However, I know that the personal decisions of home deliveries and immediate shipping that happens in all communities is tied to a system of transportation, distribution, and logistics that puts the brunt of the pollution on working class and racially minoritized communities. The adoption of the Advanced Clean Trucks (ACT), Advanced Clean Cars II (ACCII), and the Heavy Duty Low NOx Omnibus (HDO) rules would be one step in improving the quality of lives for communities by reducing the poor air quality from the engines of vehicles that are often traveling or stationed in those communities. Please support their adoption.

Sincerely,
Cyatharine
