Dear Mr. Brown and PCB Clerks,

As an electric vehicle owner, I am deeply committed to reducing emissions and believe we all have a personal responsibility to improving the air quality in our communities. Electrifying trucks is a crucial step towards safeguarding the health of drivers and the communities they pass through. I urge the swift adoption of the clean car and truck standards (R2024-017) to help accelerate this transition. Together, we can collectively work towards a cleaner, healthier environment for all.

Thank you for your consideration in this matter.

Best,

Ximena Leyte Escalante, MSW
