Dear Mr. Brown, Clerk of the Board,

I am writing this comment to the IL Pollution Control Board in support of vehicle electrification/adopting clean vehicle standards in IL. My name is Lise Loberg, I am a resident of Chicago, IL, and a member of Sierra Club. I care about clean air as an avid outdoors person. I'm a cyclist and I notice the difference in air quality when gasoline switches from summer grade to standard grade. If that difference is noticeable, wouldn't cleaner air and less diesel be even more noticeable? I believe that zero emissions vehicles are the wave of the future and the sooner the better! I urge you to adopt Advanced Clean Trucks (ACT) and the Advanced Clean Cars II (ACCII) programs.

Respectfully,
Lise Loberg
