Hello,

I am a Chicago resident and I am writing to request that the Illinois Pollution Control Board adopt Clean Vehicle Standards.

Pollution is deadly, and it is harming and killing Chicago residents who deserve to live a life with clean air and water, to enjoy the city, and be able to live here without risking their lives to do so.

I urge you to adopt Clean Vehicle Standards as other states have done, so that we can live better lives, and live in a cleaner city.

Thank you,
Virginia
