To whom it may concern:

I suffer from asthma and my children do as well. Air quality is a personal issue for me, and Illinois has some of the worst air quality in the nation, in part due to vehicle tailpipe emissions from dirty cars and trucks. Black and brown communities disproportionately bear the brunt of these impacts.

I stand with clean air advocates who are mobilizing to pass clean vehicle standards in the state. This will bring public health benefits, improve air quality and decrease our oil dependence.

Illinois deserves to breathe clean air. Please, support our climate and our health.

Sincerely
Lisa Junkin Lopez
