Subject: [External] Please adopt the Clean Vehicle Standards R24-17 for clean air
Date: Tuesday, March 11, 2025 1:40:00 PM

Dear Board Clerk Don Brown,

Sourcing materials, goods and food closer to home is one way to keep air breathable and water drinkable. However, right now, reducing emissions is the cheapest and most effective method. with fewer emissions, fewer resources would need to be spent in remediating the consequences to health, the foods we eat and the overall warming of our home planet. Your support for R24-17 will save money and lives right now. What follows is a longer list of reasons. Thank you, Victoria

As an Illinois resident, I am asking that you support the adoption of the Clean Vehicle Standards for clean air: the Advanced Clean Trucks, Advanced Clean Cars, and Heavy-Duty Omnibus rules.

Transportation is the largest source of climate warming emissions in Illinois, and hundreds of lives are lost every year to health impacts from diesel pollution. The science shows that these state standards would save lives and benefit our state, putting our state on track to meeting our climate goals and taking an important step towards making sure that all Illinois communities have clean air to breathe.

Please vote in favor of Illinois adoption of the Clean Vehicle Standards. Thank you for your time and consideration.

Sincerely,
Victoria L Cerinich
Lemont, IL
