Don,

Over the last couple of decades, in a few different capacities, I've spent time in more than 500 schools.

I never like seeing schools located near our expressways, and it seems as though black and brown kids are at these schools more than white kids.

I like the sounds of CA's Clean Trucks rule and support it.

I also ask that the Diesel Emissions Reduction Act (DERA) and the Clean Trucks Plan be enforced.

Thank you for your time,  
Tim
