Sir, please accept my concern about human health and high pollution from the referenced vehicles, and that the Clean Vehicle Standards program be supported by PCB. I believe that these standards will have a significant impact to mitigate vehicle based pollution levels in the State. This is my second recent comment on this issue.

I am a resident of Glen Carbon and believe that these rules will substantially mitigate pollution levels in my community.

My name is Chris Krusa, at  
27 Rose Ct., Glen Carbon, IL 62034.

Thank you for your time and consideration.

Chris Krusa
