**Subject:** [External] SIPC Coal Ash Pond  
**Date:** Thursday, June 26, 2025 7:21:28 PM

---

Mr. Don Brown,

The coal ash ponds for SIPC should not be exempt from Illinois' coal ash rules. These ponds contain significant amounts of toxic coal ash. They have not been properly closed. SIPC's own monitoring shows they are actively contaminating groundwater.

I request a reply regarding this subject.  
Respectfully,

Ronald Naversen  
Carbondale, IL
