AND 1501)

Proposed Rule. Second Notice.

OPINION AND ORDER OF THE BOARD (by B.F. Currie):

On March 10, 2025, the Illinois Environmental Protection Agency (IEPA) filed a proposal to amend numerous Parts of the Board’s rules. After its Springfield office moved to a new location, IEPA proposed to update the address of that office in each of the Board’s rules in which it appears. For the reasons below, the Board today submits proposed revisions to second-notice review by the Joint Committee on Administrative Rules (JCAR).

PROCEDURAL HISTORY

On March 10, 2025, IEPA filed a proposal to amend Parts 101, 310, 502, 620, 704, 721, 733, 739, 742, 807, 811, 840, 848, 1010, and 1501 of the Board’s rules. The proposal included IEPA’s Statement of Reasons (SR) and the text of the proposed amendments to each of the Parts included in it.

On March 20, 2025, the Board accepted IEPA’s proposal for hearing and submitted the proposal to first-notice publication in the *Illinois Register* without commenting on its substantive merits. On the same date, the Board hearing officer issued an order scheduling two hearings, the first on April 17, 2025, and the second on June 5, 2025.

Also on March 20, 2025, the Board requested that the Department of Commerce and Economic Opportunity (DCEO) conduct an economic impact study of the proposal by May 5, 2025. See 415 ILCS 5/27(b) (2024).

On March 27, 2025, the Board’s hearing officer issued an order submitting questions to IEPA about its proposal. On April 11, 2025, IEPA filed its responses.

The first hearing took place as scheduled on April 17, 2025, and the Board received the transcript (Tr.1) on April 30, 2025.

On April 25, 2025, the Board’s first-notice proposal appeared in the *Illinois Register*. See 49 Ill. Reg. 5681, 5693, 5702, 5707, 5718, 5726, 5737, 5748, 5758, 5773, 5781, 5793, 5799, 5806, 5811 (Apr. 25, 2025).

On May 5, 2025, the hearing officer issued an order noting that the transcript of the first hearing included a question for IEPA (Tr.1 at 7-8) and that IEPA had agreed to address it by May 29, 2025 (Tr.1 at 9-10). On May 23, 2025, IEPA filed its response.

The second hearing took place as scheduled on June 5, 2025, and the Board received the transcript (Tr.2) on June 17, 2025. In an order on June 18, 2025, the hearing officer set a deadline of July 7, 2025, for post-hearing comments, which no participant submitted. See Tr.2 at 7.

IEPA’S ORIGINAL PROPOSAL

Constructing high-speed rail through Springfield resulted in demolishing part of the building in which it had its office and necessitated moving the office to a new location. SR at 2. IEPA asserted that this move requires updating that address in each Board rule in which it appears. *Id.* IEPA argued that these revisions are needed to ensure continued public access to its programs and personnel. *Id.*

BOARD’S SECOND-NOTICE PROPOSAL

Form of Address

After the Board submitted IEPA’s proposal to first-notice publication without commenting on its merits, a hearing officer order directed questions to IEPA.

IEPA Street Address

IEPA’s Statement of Reasons stated that its proposed amendments “merely substitute the Agency’s new address for the previous one on North Grand which is currently listed in the Board’s regulations.” SR at 2; see *id.* at 4. IEPA clarified that the proposed revisions direct the reader to the address of its headquarters as designated on its website. SR at 2. IEPA added that updating the address in this manner means that it “will not need to update the regulations should it move locations in the future.” *Id.*

The Board noted that the proposal would replace a specific street address with a general reference to a website from which the address can be obtained. It also noted that the proposal did not provide the address of the website.

Based on these factors, the Board requested IEPA’s comment on whether it would object to submitting to JCAR a second-notice proposal that replaces IEPA’s former street address with the current street address or the address obtained from its website. Using 35 Ill. Adm. Code 502.202 as an example, the Board requested comment on the following potential amendment:

All permit applications must be mailed or delivered to Illinois Environmental Protection Agency, Bureau of Water, 2520 West Iles Avenue, PO Box 192764024 N. Grand Ave. E., Springfield IL 62794-9276 or at the address of the Illinois EPA's headquarters as designated on the Illinois EPA's website.

On April 11, 2025, IEPA responded that it “does not object to the Board’s suggested revision.” However, IEPA stated that it “continues to prefer the language it originally proposed, which refers users to the Agency’s website rather than listing a specific address. This method is consistent with how the Agency is updating its own administrative rules and provides a more flexible, future-proof approach.” IEPA acknowledged that it did not anticipate another office relocation.

The Board recognizes that IEPA prefers its original proposed language. However, the Board concludes to submit the proposed revision above to second-notice review by JCAR. The Board believes that providing both the updated street address and a reference to IEPA’s website assists in achieving the goal of simplifying public access to IEPA personnel and programs. Also, the Board believes that its revision provides more specificity. While the Board recognizes that the specific street address may require updating at some unspecified future time, it notes IEPA’s acknowledgment that it does not now anticipate relocating.

IEPA Web Address

IEPA also noted the Board’s comment that its original proposal did not include “a specific URL for the Agency’s website.” It responded that the website “is easily found through an internet search, and it prominently displays accurate, up-to-date contact information.”

IEPA added that it “would not object” to adding a new provision identifying its website. It noted that the Board’s procedural rules include definitions that identify its own website.

The Board agrees with IEPA that the address of its website - <https://epa.illinois.gov/> - is readily available through an internet search. Just before the date of this order, the website’s homepage prominently shows contact information including the street address of its Springfield office. The Board of course agrees that its own procedural rules provide the address of its website. However, those rules provide the address in definitions referring specifically to its web-based filing system. See 35 Ill. Adm. Code 101.202 (defining “Clerk’s Office On-Line” or “COOL” and “Website”). Also, although IEPA would not oppose adding a new provision to provide its address, the Board did not include the general provisions of its procedural rules in its first-notice proposal. Based on these factors, the Board concludes to not include a specific URL for IEPA’s website in its second-notice proposal.

Incorporations by Reference

In an order on May 5, 2025, the hearing officer reported that, “[b]efore first-notice publication of the Board’s proposal, the Secretary of State noted in 35 Ill. Adm. Code 742.210(a) that United States Environmental Protection Agency publications incorporated by reference include web addresses that no longer link to the materials.” *See* Tr.1 at 7. The order stated that “two of those publications do not apparently have updated current or active links, the first of which is test methods in SW-846 through Revision ... IV B dated 2007, and [the second] promulgated test methods 3C and 16 also dated 2007.” *Id.* The order requested that IEPA as the proponent address these incorporations in writing.

On May 23, 2025, IEPA responded that it “would suggest deleting the weblinks.” It explained that Section 5-75(a) of the Illinois Administrative Procedure Act (IAPA) “only requires that ‘reference in the agency rules must fully identify the incorporated matter by published address and date in order to specify how a copy of the material may be obtained.’” *See* 5 ILCS 100/5-75(a) (2024).

The Board accepts IEPA’s recommendation to strike outdated weblinks to the incorporated USEPA materials. To clarify the incorporation of the six sets of USEPA materials incorporated in Section 742.210(a), the Board proposes a non-substantive reorganization to make the incorporations more consistent with other incorporations of multiple materials from a single source and to more clearly provide the published address required by the IAPA. *See, e.g.*, 35 Ill. Adm. Code 620.125(a) (incorporating USEPA materials by reference).

TECHNICAL FEASIBILITY AND ECONOMIC REASONABLENESS

Request to Perform Economic Impact Study

As noted above under “Procedural History” and as required by the Act, the Board on March 20, 2025, requested that DCEO conduct an economic impact study of the proposal by May 5, 2025. *See* 415 ILCS 5/27(b) (2024). The Board has received no response to the request. Although the hearing officer at both hearings provided an opportunity to testify or comment on the Board’s request, no person at either hearing offered testimony or comment on it. *See* Tr.1 at 8-9; Tr.2 at 6-7.

Technical Feasibility

IEPA asserts that its proposed amendments “are purely ministerial in nature.” SR at 4. It argues that the revisions place no technical burdens on the public and that “no sources will be impacted.” *Id.*

The Board agrees that updating the address of IEPA’s Springfield address will not add or increase any technical burden on regulated entities or present any technical issues for complying

with the Board’s substantive rules. The Board concludes that its second-notice proposal is technically feasible.

Economic Reasonableness

IEPA again asserts that its proposed amendments “are purely ministerial in nature.” SR at 4. It argues that that the revisions place no economic burden on the public and that “no sources will be impacted.” *Id.*

The Board agrees that updating the address of IEPA’s Springfield address will not add or increase any economic burden on regulated entities or increase costs of complying with the Board’s substantive rules. The Board concludes that its second-notice proposal is economically reasonable.

Board Conclusion on Feasibility and Reasonableness

The Board concludes that its second-notice proposal is technically feasible and economically reasonable, and it further concludes that the proposal will not have “any adverse economic impact on the people of the State of Illinois.” 415 ICLS 5/27(b) (2024).

CONCLUSION

The Board finds that its proposal is technically feasible and economically reasonable and will not have an adverse impact on the people of the State of Illinois. *See* 415 ILCS 5/27(b) (2024). The Board concludes to submit proposed revisions of its rules to JCAR for second-notice review.

ORDER

The Board directs its Clerk to submit the proposed amendments to JCAR for second-notice review. *See* 5 ILCS 100/5-40(c) (2024).

IT IS SO ORDERED.

I, Don A. Brown, Clerk of the Illinois Pollution Control Board, certify that the Board adopted the above opinion and order on July 10, 2025, by a vote of 5-0.

SUBPART C: COMPUTATION OF TIME, FILING, SERVICE OF DOCUMENTS, AND STATUTORY DECISION DEADLINES

Section 101.304 Service of Documents

- a) **Service Requirements.** This Section contains the Board's general service requirements. However, the more specific Part for a proceeding type may contain additional requirements.

- b) **Duty to Serve and When to Initiate Service.** A party filing a document with the Clerk under Section 101.302 must also serve one copy of the document upon each of the other parties to the adjudicatory proceeding and, if a hearing officer has been assigned, upon the assigned hearing officer. Service of a document must be initiated concurrently with submitting the document to the Clerk for filing.
- 1) Service of a document upon a party must be made upon a person authorized by law to receive service on behalf of the party. If a party is represented by an attorney who has filed an appearance, service upon the party is made by serving the document upon the party's attorney. If more than one attorney appears for a party, service upon one of the party's attorneys is sufficient.
 - 2) Each document being served (e.g., enforcement complaint, petition for review) must be accompanied by a notice of filing (see Appendix D) and a copy of the documentation of service (see subsection (d)).
 - 3) The date on which service of a document is considered to have been completed is determined under Section 101.300(c).
 - 4) A proceeding is subject to dismissal, and the filing party is subject to sanctions, if service is not timely initiated or completed.
 - 5) Whether service of a document was proper may be challenged by the party allegedly served. To avoid waiving the right to contest personal jurisdiction, any challenge to service must be made under Section 101.400(a)(5).
- c) **Methods of Service.** A document must be served in one of the following ways:
- 1) Except as provided in subsection (c)(2), service of documents may be made by any of the following methods:
 - A) Personal service;
 - B) U.S. Mail;
 - C) Third-party commercial carrier;
 - D) E-mail in compliance with Subpart J; and

- E) Facsimile, but only if the party being served has filed a notice consenting to receipt of facsimile service and not filed a notice revoking that consent.
- 2) Service of enforcement complaints and EMSA statements of deficiency upon respondents must be made by:
 - A) Personal service;
 - B) U.S. Mail with a recipient's signature recorded by the U.S. Postal Service upon delivery; or
 - C) A third-party commercial carrier with a recipient's signature recorded by the third-party commercial carrier upon delivery.
- 3) Service of administrative citations must be made as required under 35 Ill. Adm. Code 108.
- d) Documentation of Service and When to File Documentation of Service. A party serving a document upon another party must also file documentation of that service. A proceeding is subject to dismissal, and the filing party is subject to sanctions, if documentation of service is not timely filed with the Clerk. Documenting service and filing that documentation must be done as follows:
 - 1) For personal service of a document, either an affidavit or certificate of service signed by the person who made personal delivery or a declaration of service signed by the process server who made personal delivery must accompany the document being filed with the Clerk. However, if the signed affidavit, certificate, or declaration is not available to the filing party when the document is filed with the Clerk, the filing must include:
 - A) An affidavit or certificate of service, signed by the filing party, stating that service has been initiated, but not yet completed, and providing the following: the date, the time by when, and the place the document was provided to the person making personal delivery; the address appearing on the envelope or package containing the document; and a statement that the delivery charge was prepaid; and
 - B) Within seven days after it becomes available to the filing party, the affidavit or certificate of service containing the signature of the person who made personal delivery or the declaration of service containing the signature of the process server, accompanied by a

notice identifying the filed document to which the signed affidavit, certificate, or declaration corresponds. A copy of the signed affidavit, certificate, or declaration and the notice must be served under subsection (a).

- 2) For service of a document by U.S. Mail or third-party commercial carrier with a recipient's signature recorded by the U.S. Postal Service or the third-party commercial carrier upon delivery, the delivery confirmation containing the recipient's signature must accompany the document being filed with the Clerk. However, if the delivery confirmation containing the recipient's signature is not available to the filing party when the document is filed with the Clerk, the filing must include:
 - A) An affidavit or certificate of service, signed by the filing party, stating that service has been initiated, but not yet completed, and providing the following: the date, the time by when, and the place the document was provided to the U.S. Postal Service or the third-party commercial carrier; the address appearing on the envelope or package containing the document; and a statement that the proper postage or the delivery charge was prepaid; and
 - B) Within seven days after it becomes available to the filing party, the delivery confirmation containing the recipient's signature, accompanied by a notice identifying the filed document to which the signed delivery confirmation corresponds. A copy of the delivery confirmation and the notice must be served under subsection (a).
- 3) For service of a document by e-mail or facsimile, an affidavit or certificate of service must accompany the document being filed with the Clerk. An affidavit or certificate of e-mail service must comply with Section 101.1060. An affidavit or certificate of facsimile service must include the date and time of the facsimile transmission, the telephone number to which the transmission was sent, the number of pages transmitted, and a statement that the document was served by facsimile.
- 4) For service of a document by U.S. Mail or a third-party commercial carrier without a recipient's signature recorded by the U.S. Postal Service or the third-party commercial carrier upon delivery, an affidavit or certificate of service must accompany the document being filed with the Clerk. The affidavit or certificate must state the following: the date, the time by when, and the place the document was provided to the U.S. Postal Service or the third-party commercial carrier; the address appearing on the

envelope or package containing the document; and that proper postage or the delivery charge was prepaid.

- 5) An affidavit of service must be notarized and is for use by a non-attorney. A certificate of service is for use by an attorney. Sample forms of an affidavit of service and a certificate of service are available in Appendices E and H.
- 6) A certificate of service must bear an attorney's signature. Signatures in affidavits of service, declarations of service, and delivery confirmations must be written by hand. A handwritten signature in documentation of service filed with the Clerk may be a facsimile or digitized electronic signature.
- e) Service of Amicus Curiae Briefs. Any person who files an amicus curiae brief with the Board in any proceeding must serve copies of that brief on all parties in compliance with this Section.
- f) Service of Comments of Participants in an Adjudicatory Proceeding. Participants must serve comments upon the parties to the proceeding. The Board will consider the comments as time and the Act or other applicable law allow.
- g) Service on Agencies. Service must be at the addresses listed below unless a specific person has an appearance on file with the Board or has, in compliance with Section 101.1070, consented to e-mail service.
 - 1) Service on the Illinois Environmental Protection Agency. The Agency must be served at [the:](#)

SUBPART F: REPORTING REQUIREMENTS

Section 310.635 Notification of Discharge of Hazardous Waste

a) Requirement for Notification

- 1) The industrial user must notify the POTW; the Director, Waste Management Division, USEPA Region 5, 230 South Dearborn Street, Chicago, Illinois 60604; and the Manager, Division of Land Pollution Control, Illinois Environmental Protection Agency, 2520 West Iles Avenue, PO Box 19276, Springfield, Illinois 62794-9276 or at the address of the Illinois EPA's headquarters as designated on the Illinois EPA's website 1021 North Grand Avenue East, P.O. Box 19276, Springfield, Illinois 62794-9276, in writing of any discharge into the POTW of a substance, which, if otherwise disposed of, would be a hazardous waste under 35 Ill. Adm. Code 721. Such notification must include the name of

the hazardous waste as set forth in 35 Ill. Adm. Code 721, the USEPA hazardous waste number, and the type of discharge (continuous, batch, or other). If the industrial user discharges more than 100 kilograms of such waste per calendar month to the POTW, the notification must also contain the following information to the extent such information is known and readily available to the industrial user:

- A) An identification of the hazardous constituents contained in the wastes;
 - B) An estimation of the mass and concentration of such constituents in the waste stream discharged during that calendar month; and
 - C) An estimation of the mass of constituents in the waste stream expected to be discharged during the following 12 months.
- 2) Time for Notification. All notifications required under subsection (a)(1) must take place within 180 days after April 27, 1992. Industrial users who commence discharging after April 27, 1992, must provide the notification no later than 180 days after the discharge of the listed or characteristic hazardous waste.
 - 3) Frequency for Notification. Any notification required under subsection (a)(1) need be submitted only once for each hazardous waste discharged. However, notifications of changed discharges must be submitted under Section 310.613.
 - 4) Exception for Notification Under Other Provisions. The notification requirement of subsection (a)(1) does not apply to pollutants already reported under the self-monitoring requirements of Sections 310.602, 310.604, and 310.605.
- b) Exemption to Reporting Requirement. An industrial user is exempt from the requirements of subsection (a)(1) during a calendar month in which the industrial user discharges no more than 15 kilograms of hazardous wastes, unless the wastes are acute hazardous wastes specified in 35 Ill. Adm. Code 721.130(d) and 721.133(e). Discharge of more than 15 kilograms of non-acute hazardous wastes in a calendar month, or of any quantity of acute hazardous wastes, as specified in 35 Ill. Adm. Code 721.130(d) and 721.133(e), requires a one-time notification. Subsequent months during which the industrial user discharges more than such quantities of any hazardous waste do not require additional notification.

- c) Newly Listed Hazardous Wastes. In the case of any new regulations under section 3001 of the federal RCRA (42 U.S.C. 6921) identifying additional characteristics of hazardous waste or listing any additional substance as a hazardous waste, the industrial user must notify the POTW; USEPA Region 5, Waste Management Division; and the Agency, Division of Land Pollution Control of the discharge of such substance, pursuant to subsection (a)(1), within 90 days of the effective date of those regulations.
- d) Required Certification. In the case of any notification made under this Section, the industrial user must certify that it has a program in place to reduce the volume and toxicity of hazardous wastes generated to the degree it has determined to be economically practical.

SUBPART I: REQUIREMENTS FOR CLASS V INJECTION WELLS

Section 704.287 Location in a Groundwater Protection Area or Another Sensitive Area

- a) The owner or operator of an existing motor vehicle waste disposal well located in a groundwater protection area or another sensitive groundwater area is subject to Section 704.288.

BOARD NOTE: Corresponding 40 CFR 144.87(a) provides that the "new requirements" apply statewide if the State or the USEPA Region fails to identify sensitive groundwater areas. The Board has interpreted "new requirements" as synonymous with "additional requirements" elsewhere in this Subpart I. Sections 14.1 through 14.6 and 17.1 through 17.4 of the Act and 35 Ill. Adm. Code 615 through 617 designate protected groundwater resources and allow the designation of other sensitive areas for protection. Further, the Illinois Groundwater Protection Act, and the regulations adopted as 35 Ill. Adm. Code 620 under that statute, protect the quality of all groundwater resources in Illinois.

- b) This subsection (b) corresponds with 40 CFR 144.87(b), which set forth now-past compliance deadlines for identifying groundwater protection areas. This statement maintains structural consistency with the federal rules.
- c) This subsection (c) corresponds with 40 CFR 144.87(c), which set forth now-past compliance deadlines for identifying other sensitive groundwater areas. This statement maintains structural consistency with the federal rules.
- d) Finding Out If a well Is in a Groundwater Protection Area or Sensitive Groundwater Area. The Agency must make that listing available for public inspection and copying upon request. Any interested person may contact the Illinois Environmental Protection Agency, Bureau of Water, Division of Public Water Supplies, 2520 West Iles Avenue, PO Box 19276, Springfield, Illinois 62794-9276 or at the address of the Illinois EPA's headquarters as designated on

[the Illinois EPA's website 1021 North Grand Ave. East P.O. Box 19276, Springfield Illinois 62794-9276](#) (217-785-8653) to obtain information on the listing or to determine if any Class V injection well is situated in a groundwater protection area or another sensitive groundwater area.

- e) Changes in the Status of the State Drinking Water Source Assessment and Protection Program. If the State assesses a groundwater protection area for groundwater supplying a new community water system or a new non-transient non-community water system, or if the State re-delineates the boundaries of a previously delineated groundwater protection area to include an additional area, the additional regulations of Section 704.288 would apply to any motor vehicle waste disposal well in such an area. The additional regulations apply to the affected Class V injection well one year after the State completes the local assessment for the groundwater protection area for the new drinking water system or the new re-delineated area. The Agency must extend this deadline for up to one year if it determines that the most efficient compliance option for the well is connection to a sanitary sewer or installation of new treatment technology and the extension is necessary to implement the compliance option.

BOARD NOTE: Any Agency determination of the most efficient compliance option is subject to Board review pursuant to Section 40 of the Act.

- f) This subsection (f) corresponds with 40 CFR 144.87(f), which set forth now-past compliance deadlines in the event of a failure to identify other sensitive groundwater areas. This statement maintains structural consistency with the federal rules.
- g) Application of Requirements Outside of groundwater Protection Areas and Sensitive Groundwater Areas. The Agency must apply the additional requirements in Section 704.288 to an owner or operator, even if the [owner's](#) or [operator's](#) well is not located in the areas listed in subsection (a), if the Agency determines that the application of those additional requirements is necessary to protect human health and the environment.

BOARD NOTE: Any Agency determination to apply the additional requirements of Section 704.288 is subject to Board review pursuant to Section 40 of the Act. The Board has omitted certain segments of corresponding 40 CFR 144.87 that encouraged State actions, since those segments did not impose requirements on the regulated community.

BOARD NOTE: Derived from 40 CFR 144.87 (2017).

SUBPART E: EXCLUSIONS AND EXEMPTIONS

Section 721.141 Notification and Recordkeeping for Used, Intact CRTs Exported for Reuse

- a) A CRT exporter that exports used, intact CRTs for reuse must send a notification to the Agency and USEPA. This notification may cover export activities extending over a 12-month or lesser period.
 - 1) The notification must be in writing, signed by the exporter, and include the following information:
 - A) Name, mailing address, telephone number, and USEPA identification number (if applicable) of the exporter of the used, intact CRTs;
 - B) The estimated frequency or rate at which the used, intact CRTs are to be exported for reuse and the period of time over which they are to be exported;
 - C) The estimated total quantity of used, intact CRTs specified in kilograms;
 - D) All points of entry to and departure from each transit country through which the used, intact CRTs will pass, a description of the approximate length of time the used, intact CRTs will remain in that country, and the nature of their handling while there;

- E) A description of the means by which each shipment of the used, intact CRTs will be transported (e.g., mode of transportation vehicle (air, highway, rail, water, etc.), types of container (drums, boxes, tanks, etc.));
- F) The name and address of the ultimate destination facility or facilities where the used, intact CRTs will be reused, refurbished, distributed, or sold for reuse and the estimated quantity of used, intact CRTs to be sent to each facility, as well as the name of any alternate destination facility or facilities;
- G) A description of the manner in which the used, intact CRTs will be reused (including reuse after refurbishment) in the foreign country that will be receiving the used, intact CRTs; and
- H) A certification signed by the CRT exporter that states as follows:

"I certify under penalty of law that the CRTs described in this notice are intact and fully functioning or capable of being functional after refurbishment and that the used CRTs will be reused or refurbished and reused. I certify under penalty of law that I have personally examined and am familiar with the information submitted in this and all attached documents and that, based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment."

- 2) Notifications submitted by mail should be sent to the following mailing address:

Office of Enforcement and Compliance Assurance
Office of Federal Activities
International Compliance Assurance Division (Mail Code 2254A)
Environmental Protection Agency
1200 Pennsylvania Ave., NW
Washington, DC 20460

Hand-delivered notifications should be sent to the following address:

Office of Enforcement and Compliance Assurance
Office of Federal Activities
International Compliance Assurance Division (Mail Code 2254A)

Environmental Protection Agency
William Jefferson Clinton Building, Room 6144
1200 Pennsylvania Ave., NW
Washington, DC 20004

In either case, the following must be prominently displayed on the front of the envelope:

"Attention: Notification of Intent to Export CRTs".

A notification submitted to the Agency by mail or hand-delivered must be sent to the following mailing address:

Illinois Environmental Protection Agency
Bureau of Land Pollution Control
2520 West Iles Avenue
PO Box 19276
Springfield, Illinois 62794-9276
or at the address of the Illinois EPA's headquarters as
designated on the Illinois EPA's website.

1021 North Grand Ave. East
P.O. Box 19276
Springfield, IL 62794-9276

- b) A CRT exporter that exports used, intact CRTs for reuse must keep copies of normal business records, such as contracts, demonstrating that each shipment of exported used, intact CRTs will be reused. This documentation must be retained for a period of at least three years from the date the CRTs were exported. If the documents are written in a language other than English, a CRT exporter of used, intact CRTs sent for reuse must provide both the original, non-English version of the normal business records, as well as a third-party translation of the normal business records into English, within 30 days after a request by USEPA.

SUBPART B: STANDARDS FOR SMALL QUANTITY HANDLERS

Section 733.118 Off-Site Shipments

- a) A small quantity handler of universal waste is prohibited from sending or taking universal waste to a place other than another universal waste handler, a destination facility, or a foreign destination.
- b) If a small quantity handler of universal waste self-transportes universal waste off-site, the handler becomes a universal waste transporter for those self-transportation activities and must comply with the transporter requirements of Subpart D while transporting the universal waste.
- c) If a universal waste being offered for off-site transportation meets the definition of hazardous material under USDOT regulation 49 CFR 171.8 (Definitions and Abbreviations), incorporated by reference in 35 Ill. Adm. Code 720.111(b), a small quantity handler of universal waste must package, label, mark, and placard the shipment and prepare the proper shipping papers in accordance with the applicable USDOT regulations under 49 CFR 171 (General Information, Regulations, and Definitions), 172 (Hazardous Materials Table, Special Provisions, Hazardous Materials Communications, Emergency Response Information, and Training Requirements), 173 (Shippers—General Requirements for Shipments and Packages), 174 (Carriage by Rail), 175 (Carriage by Aircraft), 176 (Carriage by Vessel), 177 (Carriage by Public Highway), 178 (Specifications for Packagings), 179 (Specifications for Tank Cars), and 180 (Continuing Qualification and Maintenance of Packagings), incorporated by reference in 35 Ill. Adm. Code 720.111(b).
- d) Prior to sending a shipment of universal waste to another universal waste handler, the originating handler must ensure that the receiving handler agrees to receive the shipment.
- e) If a small quantity handler of universal waste sends a shipment of universal waste to another handler or to a destination facility and the shipment is rejected by the receiving handler or destination facility, the originating handler must do either of the following:

- 1) Receive the waste back when notified that the shipment has been rejected; or
 - 2) Agree with the receiving handler on a destination facility to which the shipment will be sent.
- f) A small quantity handler of universal waste may reject a shipment containing universal waste or a portion of a shipment containing universal waste that it has received from another handler. If a handler rejects a shipment or a portion of a shipment, it must contact the originating handler to notify the originating handler of the rejection and to discuss reshipment of the load. The handler must perform either of the following actions:
- 1) Send the shipment back to the originating handler; or
 - 2) If agreed to by both the originating and receiving handler, send the shipment to a destination facility.
- g) If a small quantity handler of universal waste receives a shipment containing hazardous waste that is not a universal waste, the handler must immediately notify the Agency (Bureau of Land, Illinois EPA, [2520 West Iles Avenue, PO Box 19276, Springfield, Illinois 62794-9276](#) or [at the address of the Illinois EPA's headquarters as designated on the Illinois EPA's website](#)), ~~1021 North Grand Avenue East, Springfield, Illinois 62794-9276~~ (telephone: 217-782-6761)) of the illegal shipment, and provide the name, address, and phone number of the originating shipper. The Agency will provide instructions for managing the hazardous waste.
- h) If a small quantity handler of universal waste receives a shipment of non-hazardous, non-universal waste, the handler may manage the waste in any way that is in compliance with applicable federal, State, or local solid (non-hazardous) waste regulations.

BOARD NOTE: See generally the Act and 35 Ill. Adm. Code 807 through 817 to determine whether additional facility siting, special waste, or non-hazardous waste regulations apply to the waste. Consult the ordinances of relevant units of local government to determine whether local requirements apply.

SUBPART C: STANDARDS FOR LARGE QUANTITY HANDLERS

Section 733.138 Off-Site Shipments

- a) A large quantity handler of universal waste is prohibited from sending or taking universal waste to a place other than another universal waste handler, a destination facility, or a foreign destination.
- b) If a large quantity handler of universal waste self-transport universal waste off-site, the handler becomes a universal waste transporter for those self-transportation activities and must comply with the transporter requirements of Subpart D while transporting the universal waste.
- c) If a universal waste being offered for off-site transportation meets the definition of hazardous material under USDOT regulation 49 CFR 171.8 (Definitions and Abbreviations), incorporated by reference in 35 Ill. Adm. Code 720.111(b), a large quantity handler of universal waste must package, label, mark and placard the shipment, and prepare the proper shipping papers in accordance with the applicable USDOT regulations under 49 CFR 171 (General Information, Regulations, and Definitions), 172 (Hazardous Materials Table, Special Provisions, Hazardous Materials Communications, Emergency Response Information, and Training Requirements), 173 (Shippers—General Requirements for Shipments and Packages), 174 (Carriage by Rail), 175 (Carriage by Aircraft), 176 (Carriage by Vessel), 177 (Carriage by Public Highway), 178 (Specifications for Packagings), 179 (Specifications for Tank Cars), and 180 (Continuing Qualification and Maintenance of Packagings), incorporated by reference in 35 Ill. Adm. Code 720.111(b).
- d) Prior to sending a shipment of universal waste to another universal waste handler, the originating handler must ensure that the receiving handler agrees to receive the shipment.

SUBPART E: STANDARDS FOR DESTINATION FACILITIES

Section 733.161 Off-Site Shipments

- a) The owner or operator of a destination facility is prohibited from sending or taking universal waste to a place other than a universal waste handler, another destination facility, or a foreign destination.
- b) The owner or operator of a destination facility may reject a shipment containing universal waste, or a portion of a shipment containing universal waste. If the owner or operator of the destination facility rejects a shipment or a portion of a shipment, it must contact the shipper to notify the shipper of the rejection and to discuss reshipment of the load. The owner or operator of the destination facility must perform either of the following actions:

- 1) Send the shipment back to the original shipper; or
 - 2) If agreed to by both the shipper and the owner or operator of the destination facility, send the shipment to another destination facility.
- c) If the owner or operator of a destination facility receives a shipment containing hazardous waste that is not a universal waste, the owner or operator of the destination facility must immediately notify the Agency (Bureau of Land, Illinois EPA, [2520 West Iles Avenue, PO Box 19276, Springfield, Illinois 62794-9276](#) or [at the address of the Illinois EPA's headquarters as designated on the Illinois EPA's website](#)) ~~1021 North Grand Avenue East, Springfield, Illinois 62794-9276~~ (telephone: 217-782-6761)) of the illegal shipment, and provide the name, address, and phone number of the shipper. - i) The processor or re-refiner company name;
 - ii) The owner of the processor or re-refiner company;
 - iii) The mailing address for the processor or re-refiner;
 - iv) The name and telephone number for the processor or re-refiner point of contact;
 - v) The type of transport activity (i.e., transport only, transport and transfer facility, or transfer facility only);
 - vi) The location of all transfer facilities at which used oil is stored;
 - vii) The name and telephone number for a contact at each transfer facility.

- 2) A used oil processor or re-refiner that has not received an Illinois special waste identification number may obtain one by contacting the Agency at the following address: Division of Land Pollution Control, Illinois EPA, [2520 West Iles Avenue, PO Box 19276, Springfield, Illinois 62794-9276](mailto:2520WestIlesAvenue@epa.state.il.us) or [at the address of the Illinois EPA's headquarters as designated on the Illinois EPA's website 1021 North Grand Avenue, Springfield, Illinois 62794-9276](http://www.epa.state.il.us) (217-782-6761).

SUBPART G: STANDARDS FOR USED OIL BURNERS THAT BURN OFF-
SPECIFICATION USED OIL FOR ENERGY RECOVERY

Section 739.162 Notification

- a) Identification Numbers. A used oil burner that has not previously complied with the notification requirements of RCRA section 3010 must comply with these requirements and obtain a USEPA identification number pursuant to RCRA section 3010 and an Illinois special waste identification number.
- b) Mechanics of Notification. A used oil burner that has not received a USEPA identification number may obtain one by notifying the Agency of its used oil activity by submitting either of the following:
 - 1) A completed Notification of RCRA Subtitle C Activities (Site Identification Form) (USEPA Form 8700-12) to the Agency; or

BOARD NOTE: USEPA Form 8700-12 is available from the Agency, Bureau of Land (217-782-6762). It is also available on-line for download in PDF file format: www.epa.gov/hwgenerators/instructions-and-form-hazardous-waste-generators-transporters-and-treatment-storage-and.
 - 2) A letter to the Agency requesting a USEPA identification number. The letter should include the following information:
 - A) The burner company name;
 - B) The owner of the burner company;
 - C) The mailing address for the burner;
 - D) The name and telephone number for the burner point of contact;
 - E) The type of used oil activity; and
 - F) The location of the burner facility.
- c) A used oil burner that has not previously obtained an Illinois special waste identification number may obtain one by contacting the Agency at the following address: Division of Land Pollution Control, Illinois EPA, [2520 West Iles Avenue, PO Box 19276, Springfield, Illinois 62794-9276](#) or [at the address of the Illinois EPA's headquarters as designated on the Illinois EPA's website](#) ~~1021 North Grand Avenue, Springfield, Illinois 62794-9276~~ (217-782-6761).

SUBPART H: STANDARDS FOR USED OIL FUEL MARKETERS

Section 739.173 Notification

- a) A used oil fuel marketer subject to the requirements of this Section that has not previously complied with the notification requirements of RCRA section 3010 must comply with these requirements and obtain a USEPA identification number pursuant to RCRA section 3010 and an Illinois special waste identification number.
- b) A used oil marketer that has not received a USEPA identification number may obtain one by notifying the USEPA Region 5 of its used oil activity by submitting either of the following:
 - 1) A completed Notification of RCRA Subtitle C Activities (Site Identification Form) (USEPA Form 8700-12) to the Agency; or

BOARD NOTE: USEPA Form 8700-12 is available from the Agency, Bureau of Land (217-782-6762). It is also available on-line for download in PDF file format: www.epa.gov/hwgenerators/instructions-and-form-hazardous-waste-generators-transporters-and-treatment-storage-and.
 - 2) A letter to the Agency requesting a USEPA identification number. The letter should include the following information:
 - A) The marketer company name;
 - B) The owner of the marketer;
 - C) The mailing address for the marketer;
 - D) The name and telephone number for the marketer point of contact; and
 - E) The type of used oil activity (i.e., generator directing shipments of off-specification used oil to a burner).
- c) A used oil burner that has not previously obtained an Illinois special waste identification number may obtain one by contacting the Agency at the following address: Division of Land Pollution Control, Illinois EPA, [2520 West Iles Avenue, PO Box 19276, Springfield, Illinois 62794-9276](#) or [at the address of the Illinois EPA's headquarters as designated on the Illinois EPA's website, 1021 North Grand Avenue, Springfield, Illinois 62794-9276](#) (217-782-6761).

Dear Sir or Madam:

We have authority to issue letters of credit. Our letter-of-credit operations are regulated by the Illinois Department of Financial and Professional Regulation or our deposits are insured by the Federal Deposit Insurance Corporation. (Omit language that does not apply.)

We hereby establish our Irrevocable Standby Letter of Credit No. _____ in your favor, at the request and for the account of _____ up to the aggregate amount of _____ U.S. dollars (\$_____), available upon presentation of:

1. your sight draft, bearing reference to this letter of credit No. _____; and
2. your signed statement reading as follows: "I certify that the amount of the draft is payable pursuant to regulations issued under authority of the Environmental Protection Act [415 ILCS 5] and 35 Ill. Adm. Code 807.664(e)."

This letter of credit is effective as of _____ [date] and shall expire on _____ [date at least one year later], but, such expiration date shall be automatically extended for a period of _____ [at least one year] on _____ [date] and on each successive expiration date,

unless, at least 120 days before the current expiration date, we notify both you and [owner's or operator's name] by certified mail that we have decided not to extend this letter of credit beyond the current expiration date. The 120 days will begin on the date when both _____ [owner's or operator's name] and the IEPA have received the notice, as evidenced by the return receipts. In the event you are so notified, any unused portion of the credit shall be available upon presentation of your sight draft for 120 days after the date of receipt by both you and _____ [owner's or operator's name], as shown on the signed return receipts.

Whenever this letter of credit is drawn on under and in compliance with the terms of this credit, we shall duly honor such draft upon presentation to us, and we shall deposit the amount of the draft directly into the State of Illinois Landfill Closure and Post-Closure Fund in accordance with your instructions.

We certify that the wording of this letter of credit is identical to the wording specified in 35 Ill. Adm. Code 807.Appendix A, Illustration E as such regulations were constituted on the date shown below.

SUBPART A: CLOSURE OF ASH POND D, HUTSONVILLE POWER STATION

Section 840.144 Recordkeeping and Reporting Requirements

- a) The owner or operator of Ash Pond D must file an annual report with the Agency no later than January 31 of each year during the closure of Ash Pond D and for the entire post-closure care period. Once the requirements of Section 840.142 of this Subpart have been met, annual reports are no longer required. The owner or operator must submit groundwater sampling and analysis data and decisions to remove constituents from the monitoring program no later than 30 days after the sampling and analysis have been completed.
- b) All annual reports must contain the following information:
 - 1) Trend analyses required by Section 840.118(b) of all groundwater monitoring data generated by the groundwater monitoring program required by Section 840.114 of this Subpart;
 - 2) A copy of any notice submitted to the Agency pursuant to Section 840.118(c)(1)(A) of this Subpart;
 - 3) A discussion of any statistically significant increasing trends and actions taken to mitigate such trends in accordance with Section 840.118(c)(3) of this Subpart; and
 - 4) The completed closure or post-closure activities performed during the preceding year.
- c) The owner or operator of Ash Pond D must maintain onsite or at a location specified in the closure or post-closure care plan all monitoring data and trend analysis data for 10 years following generation of the data.
