Re: City Water, Light and Power – CCR Surface Impoundments
Lakeside Ash Pond – W1671200052-01
Dallman Ash Pond – W1671200052-02
Initial Operating Permit Application

Ms. Bernhardt,

On behalf of the City of Springfield's City Water, Light and Power (CWLP) facility, Andrews Engineering submits the enclosed original and one copy of the Initial Operating Permit Application for the two existing coal combustion residual (CCR) surface impoundments subject to the Illinois EPA Standards for the Disposal of Coal Combustion Residuals in Surface Impoundments (35 Ill. Adm. Code 845). This application has been compiled pursuant to Section 845.230(d) – Initial Operating Permit for Existing, Inactive and Inactive Closed CCR Surface Impoundments. The applicable forms, Application Form CCR1 – Coal Combustion Residual Surface Impoundment Permitting Program, and Form 2E – Initial Operating Permit for Existing or Inactive CCR Surface Impoundments That Have Not Completed an Agency-Approved Closure Before July 30, 2021 are provided in Attachment 1. As required by 35 Ill. Adm. Code 845.800(d)(1), CWLP will place in the facility's operating record a copy of the permit application submitted to the Illinois EPA.

If you have any question or require further information, please contact me at your convenience.

Sincerely

Mahlon Hewitt, L.P.G.
Project Director I

TABLE OF CONTENTS

1. INTRODUCTION	1
2. CONSTRUCTION HISTORY	1
2.1 CCR Surface Impoundment Name	2
2.2 Identification number of the CCR surface impoundment (if one has been assigned by the Agency)	2
2.3 Description of the boundaries of the CCR surface impoundment (35 IAC 845.210(c)) Legal Description. All permit applications must contain a legal description of the facility boundary and a description of the boundaries of all units included in the facility).	2
2.4 Statement of Purpose for which the CCR Surface Impoundment is Being Used	3
2.5 Length of CCR surface Impoundment Operation	3
2.6 Types of CCR Placed in the CCR Surface Impoundment	3
2.7 Name and Size of Watershed within which the CCR Surface Impoundment is Located.....	3
2.8 Size in acres of the Watershed within which the CCR Surface Impoundment is Located.....	4
2.9 Physical and Engineering Properties of the Foundation and Abutment Materials on which the CCR Surface Impoundment is Constructed.....	4
2.10 Type, Size, Range, and Physical and Engineering Properties of the Materials Used in Constructing Each Zone or Stage of the CCR Surface Impoundment.....	5
2.11 Method of Site Preparation and Construction of Each Zone of the CCR Surface Impoundment.....	6
2.12 Dates of Construction of Each Successive Stage of Construction of the CCR Surface Impoundment.....	7
2.13 Drawing Satisfying the Requirements of 35 IAC 845.220(a)(1)(F).....	7
2.14 Type, Purpose, and Location of Existing Instrumentation.....	8
2.15 Area Capacity Curves for the CCR Impoundment.....	8
2.16 Spillway and Diversion Design Features, Capacities and Calculations Used in their Determination	8
2.17 Construction Specifications and Provisions for Surveillance, Maintenance, and Repair of the CCR Surface Impoundment.....	9
2.18 Record or Knowledge of Structural Instability of the CCR Surface Impoundment	10
3. SECTION 2: ANALYSIS OF CHEMICAL CONSTITUENTS	10
3.1 Analysis of the Chemical Constituents Found within the CCR to be Placed in the CCR Surface Impoundments	10
3.2 Analysis of the Chemical Constituents of all Waste Streams, Chemical Additives and Sorbent Materials Entering or Contained in the CCR Surface Impoundment	11
4. DEMONSTRATIONS AND CERTIFICATIONS.....	11
4.1 Indicate whether you have attached a demonstration that the CCR surface impoundment, as built, meets, or an explanation of how the CCR surface impoundments fails to meet, the location standards:.....	11
5. EVIDENCE THAT THE PERMANENT MARKERS HAVE BEEN INSTALLED.....	11
6. DOCUMENTATION THAT THE CCR SURFACE IMPOUNDMENT, IF NOT INCISED, WILL BE OPERATED AND MAINTAINED WITH ONE OF THE FORMS OF SLOPE PROTECTION SPECIFIED IN 35 ILL. ADM. CODE 845.430	12

- 7. INITIAL EMERGENCY ACTION PLAN AND ACCOMPANYING CERTIFICATION12**
- 8. FUGITIVE DUST CONTROL PLAN AND ACCOMPANYING CERTIFICATION12**
- 9. GROUNDWATER MONITORING INFORMATION13**
 - 9.1 Hydrogeologic Site Characterization13
 - 9.2 Design and Construction Plans of a Groundwater Monitoring System13
 - 9.3 A Groundwater Sampling and Analysis Program that Includes Selection of the Statistical Procedures to be Used for Evaluating Groundwater Monitoring Data13
 - 9.4 Proposed Groundwater Monitoring Program that Includes a Minimum of Eight Independent Samples for Each Background and Downgradient Well.....13
- 10. PRELIMINARY WRITTEN CLOSURE PLAN13**
- 11. INITIAL WRITTEN POST-CLOSURE CARE PLAN, IF APPLICABLE13**
- 12. A CERTIFICATION AS SPECIFIED IN 35 ILL. ADM. CODE 845.400(H), OR A STATEMENT THAT THE CCR SURFACE IMPOUNDMENT DOES NOT HAVE A LINER THAT MEETS THE REQUIREMENTS OF 35 ILL. ADM. CODE 845.400(B) OR (C) 13**
- 13. HISTORY OF KNOWN EXCEEDANCES OF THE GROUNDWATER PROTECTION STANDARDS IN 35 ILL. ADM. CODE 845.600, AND ANY CORRECTIVE ACTION TAKEN TO REMEDIATE THE GROUNDWATER.....14**
- 14. SAFETY AND HEALTH PLAN17**
- 15. FOR CCR SURFACE IMPOUNDMENTS REQUIRED TO CLOSE UNDER 35 ILL. ADM. CODE 845.700, THE PROPOSED CLOSURE PRIORITY CATEGORIZATION.....17**
- 16. CERTIFICATIONS18**
 - 16.1 Financial Assurance Requirements18
 - 16.2 Hazard Potential Classification Assessment and Accompanying Certifications18
 - 16.3 Structural Stability Assessment and Accompanying Certification18
 - 16.4 Safety Factor Assessment and Accompanying Certification18
 - 16.5 Inflow Design Flood Control System Plan and Accompanying Certification18
