

Electronic Filing: Received, Clerk's Office 06/26/2026 P.C. #101

From: [Abby Williams](#)
To: [Brown, Don](#); [Frank Williams](#)
Subject: [External] opposition to Case #: AS 2026-001 regarding the request from CITGO to increase carbon monoxide emissions in Lemont
Date: Friday, June 26, 2026 9:43:23 AM

Dear Mr. Brown,

We are writing to you today as a concerned residents to officially submit our opposition to Case #: AS 2026-001 regarding the request from CITGO to increase carbon monoxide emissions in Lemont.

Our community's health, and specifically the respiratory health of our children, is at stake. Given that Lemont previously voted for a heavy industry moratorium, we are deeply concerned by any proposal that would allow for increased air pollution in our area. There is not enough data to show that this proposal would not cause harm to the surrounding residents.

We urge the Illinois Pollution Control Board to vote no and reject this request to protect the air quality for residents in Lemont and the surrounding communities of Homer Glen, Lockport, and Romeoville.

Thank you for your time and for considering the health of our community in this matter.

Sincerely,

Abby and Frank Williams
