## **USEPA DELEGATES DELISTING AUTHORITY BOARD OPENS THREE DOCKETS (R90-17 - 19)**

On March 1, 1990, USEPA authorized several additional components of the Illinois RCRA hazardous waste program. (55 Fed. Reg. 7320) Included was a delegation of authority to the Board to delist hazardous wastes.

Delisting is currently handled pursuant to 35 Ill. Adm. Code 720.120 and 720.122. USEPA delistings may be proposed as identical in substance rules pursuant to the abbreviated procedures of Section 7.2 and 22.4(a) of the Act. Original delisting by the Board requires site-specific rulemaking.

On July 19, 1990, in R90-17, the Board proposed to modify the delisting rules. First, the Board has proposed to replace with verbatim text the incorporations by reference of the USEPA rules concerning listing and delisting. Second, the Board has proposed to allow the use of adjusted standards as an alternative to site-specific rulemaking.

USEPA has advised the Board that it has two pending delistings involving Illinois. The Board has opened two rulemaking Dockets to receive USEPA's files. These are: R90-18, USX Corporation, Southworks; and, R90-19, Woodward Governor Company. These will be managed as rulemakings, at least pending adoption of the alternative procedure in R90-17.

The Board will use the notice list from R90-2 and R90-10 for R90-17. The Board has established notice lists for R90-18 and 19, including the petitioners and agencies involved in the RCRA process. Persons wishing to be added to these lists should contact Morton Dorothy at 217/333-5575.

## **BOARD DISMISSES RACT RULEMAKING [R89-16(B)]**

On July 3, 1990, the Board dismissed this rulemaking as moot. This rulemaking came before the Board as a result of the Illinois ozone violations which ultimately affected Wisconsin. Wisconsin had sued the federal EPA demanding that action be taken. The two parties entered into a consent decree whereby both the federal government and the State of Illinois would promulgate rules which pertained to zone violations.

While the Board did enact certain rules in accordance with the timetable established by the consent decree, other rules were not enacted because more information was needed in regards to economic reasonableness. These latter rules were ultimately promulgated at the federal level thereby rendering any state involvement duplicative.

Questions should be directed to Timothy Dwyer at (312) 814-6923.

## **BOARD ORDERS INQUIRY HEARINGS FOR DIESEL EXHAUST OPACITY LIMITS (R90-20)**

On July 19, 1990 the Board ordered inquiry hearings in regards to diesel exhaust opacity limits. In its Order, the Board noted that the Illinois Environmental Protection Agency has registered numerous complaints from concerned citizens about the hazards of diesel exhaust. Moreover the federal EPA recently issued a press release stating that the particulates emitted from diesel exhaust are probably carcinogenic to humans.

The purpose of the inquiry hearings is to establish whether or not a rule will be beneficial. Attempts are currently underway to schedule the hearings for mid to late September.

Questions should be diverted to Timothy Dwyer (312) 814-6923.

**BOARD DENIES SITE-SPECIFIC RELIEF FOR CITIZENS UTILITIES SEWAGE PLANT (R81-19)**

On July 3, 1990, the Board denied site-specific relief to Citizens Utilities sewage treatment plant on Lily Cache Creek. In May of 1983, the Board originally dismissed this action. The Appellate court remanded the decision to the Board finding its analysis deficient in that it did not consider the economic costs and benefits pursuant to Section 27(b) of the Illinois Environmental Protection Act.

On remand, the Board considered this aspect of Section 27(b) and denied Citizens' petition. Any questions regarding this proceeding should be directed to Timothy Dwyer at (312) 814-6923.

**BOARD ORDERS HEARINGS ON GASOLINE VOLATILITY [R88-30(B)]**

On July 19, 1990, the Board ordered that an economic hearing be held in regards to a new rulemaking for gasoline volatility. A permanent rule was enacted in February of 1990, but the USEPA disagreed with some of the language and did not approve the rule. As a result, an emergency rule was adopted for the summer of 1990. The economic hearing will cover the Economic Impact Study issued by the DENR on June 27, 1990.

In the meantime, the USEPA has finalized regulations in regards to gasoline volatility, but they will not take effect until 1992. The Board is therefore proceeding with this rulemaking in order to have a regulation in effect for the summer of 1991 as well as to adopt regulations which are federally approvable.

The Board anticipates that the economic hearing will take place in mid-September. Questions should be directed to Timothy Dwyer at (312) 814-6923.

**BOARD AND STAFF ACTIVITIES**

On July 11th Board Member Jacob Dumelle met with Kathy Wells of the Chicago Center for Neighborhood Technology to discuss citizen rights and powers under the Environmental Protection Act. On July 13th Mr. Dumelle participated in an Environmental Round Table discussion that will be edited to appear in the August edition of Merrill's Illinois Legal Times. Mr. Dumelle on July 15th described the citizen suit provisions of the Act to an initial organizational meeting of the Mother Earth Network. On July 21st Mr. Dumelle discussed the "no threshold" concept for radiation effects from radium in drinking water with D. John W. Gofman, former associate director of the Livermore Laboratory, at an NEIS meeting in Evanston.
