BOARD SENDS AMENDMENTS TO LANDFILL REGULATIONS TO FIRST NOTICE, R90-26

On February 7, 1991, the Board sent to First Notice a proposal filed on December 3, 1990, by the Illinois Steel Group and the Illinois Cast Metals Association (ICMA). The proposal amends the development, operating and reporting requirements for non-hazardous waste landfills that were developed in R88-7 and amended in 35 Ill. Adm. Code 102.121.

Copies of the Opinion and Proposal are available from the Clerk of the Board at 312/814-3620. A 45-day comment period will begin upon publication of the proposed rules in the Illinois Register. Those wishing to be placed on the notice list may contact Deborah Stonich at 312/814-6926.

BOARD ADOPTS FIRST NOTICE FOR LIVESTOCK WASTE AMENDMENTS, R90-7

On February 7, 1991, the Board adopted by a 6-0 vote a First Notice Opinion and Order in R90-7, Amendments to 35 Ill. Adm. Code 501 Agriculture-Related Pollution (Management of Livestock Wastes). Board Member Jacob Dumelle was absent for the vote.

The proposed amendments would modify existing regulatory provisions dealing with the siting of new livestock management facilities, and livestock waste-handling facilities. New livestock management facilities and waste-handling facilities would be prohibited from locating within 1/2 mile of a populated area or within 1/4 mile of a non-farm residence, unless located within a designated Agricultural Area, or the facility undergoes expansion or complies within local zoning requirements, as specified in the proposed amendments.

The proposal would also allow for more liberal use of vegetative filters for the treatment of livestock waste generated at small- to medium-sized facilities.

The proposed amendments would further establish requirements for the field application of livestock wastes. Operators would be required to practice odor control methods so as not to cause air pollution. The proposal is designed to reduce the potential for odors which constitute air pollution with minimum description of farming practices.

Copies of the Opinion and Proposed Rules are available from the Clerk of the Board at 312/814-3620. The proposed rules will be published in the Illinois Register. A 45-day comment period begins upon publication. Questions concerning these proposed amendments may be directed to Michelle Dresdow at 815/753-0947.

On February 7, 1991, the Board accepted both proposals

BOARD DISMISSES TWO SUBDOCKETS IN CALIFORNIA EMISSION STANDARD RULEMAKING

On February 7, 1991, the Board dismissed subdockets (A) and (B) of its proposal to adopt portions of the California motor vehicle control program. (Docket R89-17 (A) and (B).) The dismissed subdockets were proposed by the Board on April 12, 1990, and proposed that Illinois adopt numerical emission limitations for passenger cars and light and medium duty vehicles identical to those limits which will be in effect in California in 1993. The Board's order dismissing subdockets (A) and (B) specifically noted that subdocket (C), proposed by the Board on October 11, 1990, remains under consideration by the Board. The exhibits, transcripts, and comments from subdockets (A) and (B) will remain in the record of subdocket (C). Questions may be addressed to Elizabeth Schroer Harvey, hearing officer, at 312/814-6921.

BOARD ACCEPTS RACT DEFICIENCY RULEMAKING PROPOSALS FOR HEARING

In January 1991, the Illinois Environmental Protection Agency (Agency) filed two rulemaking proposals with the Board which seek to correct deficiencies identified by the United States Environmental Protection Agency in Illinois' state implementation plan (SIP) for ozone in the Chicago and Metro-East (East St. Louis) areas. The proposals contain regulations requiring the implementation of reasonably available control technology (RACT) for certain sources of volatile organic material (VOM). The Agency certified that both proposals are federally required rules, pursuant to Section 28.2 of the Environmental Protection Act, in part because the federal Clean Air Act Amendments of 1990 require the states to submit RACT corrections by May 15, 1991.

for hearing, and accepted the Agency's certification that the

proposals are federally required. Interested persons have 21 days from that date to recommend that the Board request or not request that an economic impact study (EIS) be prepared on the proposals. The Board will make its EIS determination by April 7, 1991. Hearings on both proposals will be held in April 1991. The proposals have been docketed as R91-7 (the Chicago proposal) and R91-8 (the Metro-East proposal). Copies of the proposals can be obtained through the Clerk's office (\$0.25 per page) at 312/814-3620. Questions on these proceedings should be directed to Elizabeth Schroer Harvey, hearing officer, at 312/814-6921.

**RESTRICTED STATUS AND CRITICAL REVIEW
LISTS FOR SEWAGE TREATMENT IN THIS
ISSUE**

The Illinois Environmental Protection Agency, Division of Water Pollution Control, is publishing copies of the Division's Restricted Status and Critical Review lists at the end of this issue of the Environmental

Register. These lists reflect the status as of December 30, 1990.

**GOVERNOR AND IEPA DIRECTOR TO SPEAK
AT WASTE CONFERENCE**

Governor Jim Edgar and Mary Gade, director of the Illinois Environmental Protection Agency, will speak at the "Waste in the Heartland" conference on February 27-March 1, 1991, at the Marriott Hotel, 540 North Michigan Avenue, in Chicago. The annual conference is being held by The Lake Michigan States Section of the Air and Waste Management Association. Sessions on siting, Remediation, RCRA, Superfund, Risk Assessment, Recycling, and Municipal Waste are included. Experts on waste issues will be available in an exhibit area, and an optional tour of an incinerator and waste disposal facility will be offered. Call Kathleen Conway at 312/814-3469 to receive a registration form.

PUBLIC AFFAIRS AWARD LECTURE

Dr. Leon Lederman, Professor of Physics, University of Chicago and Director Emeritus of Fermilab, has been chosen to receive the Public Affairs Award of the Chicago Section of the American Chemical Society. Dr. Lederman is being honored for his pioneering work in science education for youth and the public and his role as science advisor to the Governor. Dr. Lederman received the Nobel Prize for physics in 1982 and at the present time is president of the American Association for the Advancement of Science. Dr. Lederman will give his award lecture titled "Science and the Public: PI vs. PR" on Friday, March 22 at 8:00 p.m. at Montaseros's Ristorante, 3935 W. Devon Ave. For further information, call Mr. Ron Sykstus at 312/461-9595.
