RULEMAKING UPDATE

CROSS-CONNECTION STANDARDS PROPOSED FOR FIRST NOTICE, R87-37

On October 1, 1992, the Board proposed for First Notice standards for the placement of cross-connection control devices. Under the proposed rules, control devices will be required at connections where non-potable water or chemicals might enter the public water supply distribution system. Single-family dwellings and multi-family dwellings that do not contain fire safety systems will be exempt from the requirements. The Board is accepting comment on the proposal until December 1, 1992. Comments should be addressed to Dorothy Gunn, Clerk, Illinois Pollution Control Board, 100 W. Randolph, Chicago, Illinois, 60601. Address questions to Marie E. Tipsord, at 312-814-4925. (Please refer to docket R87-37.)

GENERAL MOTORS SITE-SPECIFIC CARBON MONOXIDE STANDARD ADOPTED, R90-23

On October 1, 1992, the Board adopted a site specific rule for the carbon monoxide emissions from the General Motors ferrous foundry located in Vermilion County. The regulation imposes a CO limitation of 2,000 ppm on emissions from the foundry. The present state-wide standard is 200 ppm on CO emissions from cupolas. Direct questions to Diane O'Neill at 312-814-6062. (Please refer to docket R90-23.)

COMMENTS SOUGHT ON TOXIC AIR CONTAMINANTS (STYRENE), R90-1(D)

On October 1, 1992 the Board requested comments in docket R90-1(D), the Toxic Air Contaminants List, Styrene proceeding. The Board requested that all parties interested in the Styrene proceedings submit any additional comments by November 2, 1992. The Board made it clear that the Board intends to make a decision in the near future. Additionally, the Board incorporated the record in R90-1(A) by reference. The Order established that following the close of the comment period, the Board will issue an Opinion and Order which will determine either to propose a listing for styrene for First Notice or to dismiss the docket. The Board did not anticipate extending the present comment period beyond November 2, 1992, and it encouraged participants to timely file any comments before the Board takes its next action in

this docket. Comments should be addressed to Dorothy Gunn, Clerk, Illinois Pollution Control Board, 100 W. Randolph, Chicago, Illinois, 60601. Address questions to Deborah L. Frank, at 217-333-5574. (Please refer to docket R90-1(D).)

AMENDMENTS TO LANDFILL REGULATIONS PROPOSED FOR FIRST NOTICE, R92-19

On October 1, 1992, the Board proposed for First Notice amendments to Parts 811 and 813 of the landfill regulations to delete requirements for monitoring toxic air contaminants. In Waste Management of Illinois, Inc. v. PCB, 231 Ill. App. 3d 278, 595 N.E.2d 1171 (1st Dist.1992), the First District appellate court invalidated segments of the landfill regulations adopted in 1990. (See the July 8, 1992 *Environmental Register*.) In response, the Board opened this docket to repeal those segments held invalid. These include the Section 811.310(d)(1)(F) and 813.106(b) references to the list of toxic air contaminants, which effectively require a landfill owner or operator to monitor for those compounds. Comments should be addressed to Dorothy Gunn, Clerk, Illinois Pollution Control Board, 100 W. Randolph, Chicago, Illinois, 60601. Address questions to Deborah Stonich, at 312-814-6926. (Please refer to docket R92-19.)

FOR YOUR INFORMATION

PUBLIC HEARING DATE FOR AIR TOXICS REPORTING REQUIREMENTS, R90-1(C)

The Board has arranged 9:30 a.m., Friday, December 4, 1992, as the date for a public hearing in R90-1(C), the rulemaking involving toxic air contaminants reporting requirements. The hearing will occur in Room 9-040, State of Illinois Center, 100 West Randolph (9th floor), Chicago, Illinois. Direct questions to Deborah Frank, at 217-333-5574. (Please refer to docket R90-1(C).)

FOURTH DISTRICT INVALIDATES STATE REMEDIAL ACTION PRIORITY LIST

By a June 25, 1992 decision, in States Land Improvement Corp. v. IEPA, 231 Ill. App. 3d 842, 596 N.E.2d

1164 (4th Dist. 1992), the Fourth District determined that the Agency lacked the express or implicit authority to promulgate the State Remedial Action Priority List (SRAPL), 35 Ill. Adm. Code 860.210. The Agency had evaluated a parcel owned by States Land and determined that the site warranted the number one position on the list. On writ of certiorari the court held that the listing "has elements of permanence and finality", and the Agency had no authority to issue the list.

**Illinois Environmental Protection Agency
Division of Public Water Supplies
Restricted Status List -- Public Water Supplies**

The Restricted Status List was developed to give additional notification to officials of public water supplies which are in violation of 35 Ill. Adm. Code, Subtitle F: Public Water Supplies, Chapter I or the Illinois Environmental Protection Act.

The Restricted Status List will include all Public Water Supplies for which the Agency has information indicating a violation of any of the following requirements: finished water quality requirements of 35 Ill. Adm. Code, Part 604, Subparts B and C; maintenance of adequate pressure on all parts of the distribution system under all conditions of demand; meeting raw water quantity requirements of 35 Ill. Adm. Code 604.502; or maintenance of treatment facilities capable of providing water "assuredly adequate in quantity" as required by Section 18 of the Illinois Environmental Protection Act.

A public water supply on the Restricted Status List will not be issued permits for water main extensions, except for certain limited situations, or unless the supply has been granted a variance from the Illinois Pollution Control Board for the violation, or from permit issuance requirements of Section 39 of the Act.

This list is continually being revised as new information becomes available, and therefore, specific inquiries as to the status of any public water supply should be directed to the Division of Public Water Supplies for final determination. This list reflects the status as of October 1, 1992.

* Indicates public water supplies which have been added to the list since the previous publication.

** Indicates actions are being taken by officials to bring the public water supply into compliance.

**Illinois Environmental Protection Agency
 Division of Public Water Supplies
 Critical Review List -- Public Water Supplies**

October, 1992

The Critical Review List was developed to give additional notification to officials of public water supplies which may be close to being in violation of 35 Ill. Adm. Code, Subtitle F: Public Water Supplies, Chapter I or the Illinois Environmental Protection Act.

A supply will be placed on the Critical Review List when Agency records indicate that it is approaching any of the violations which would place it on the Restricted Status List.

This list is continually being revised as new information becomes available, and therefore, specific inquiries as to the status of any public water supply should be directed to the Division of Public Water Supplies for final determination.

This list reflects the status as of October 1, 1992.

Indicates public water supplies which have been added to the list since the previous publication.

Indicates actions are being taken by officials to bring the public water supply into compliance.
