IN THE MATTER OF:)
)
WASTEWATER PRETREATMENT UPDATE,) R01-25
USEPA AMENDMENTS) (Identical-in-Substance
(July 1, 2000, through December 31, 2000)) Rulemaking - Water)

Adopted Rule. Final Order.

OPINION AND ORDER OF THE BOARD (by N.J. Melas):

Pursuant to Sections 7.2 and 13.3 of the Environmental Protection Act (Act) (415 ILCS 5/7.2 and 13.3 (2000)), the Board today adopts amendments to the Illinois wastewater pretreatment regulations. Section 13.3 of the Act provides for quick adoption of regulations that are identical-in-substance to federal wastewater pretreatment regulations adopted by the United States Environmental Protection Agency (USEPA) pursuant to Sections 307(b), (c), and (d) and 402(b)(8) and (9) of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C. §§ 1317(b), (c), (d), 1342(b)(8) and (9) (1998)). Section 13.3 of the Act also provides that Title VII of the Act and Section 5-35 and 5-75 of the Administrative Procedure Act (APA) (5 ILCS 100/5-35 and 5-75 (2000)), do not apply to this rulemaking. Accordingly, this rulemaking is not subject to first or second-notice review by the Joint Committee on Administrative Rules (JCAR).

Section 7.2(b) of the Act (415 ILCS 5/7.2(b) (2000)) requires the Board to complete its identical-in-substance rulemaking actions within one year of the date of the earliest federal amendments involved in a docket. In this docket, the earliest federal action requiring Board action occurred on August 14, 2000. Thus, the Board must complete its rulemaking activity in this docket prior to August 14, 2001.

FEDERAL ACTIONS CONSIDERED IN THIS RULEMAKING

This rulemaking incorporates certain federal amendments that occurred during the period of July 1, 2000, through December 31, 2000. The federal wastewater pretreatment regulations are found at 40 C.F.R. §§ 400-499, interspersed throughout the federal wastewater effluent discharge rules. The USEPA amended its wastewater pretreatment regulations two times during that period that necessitates Board action: August 14, 2000; and December 22, 2000.

The federal amendments incorporated into this rulemaking are summarized as follows:

Federal Action

December 22, 2000
(65 Fed. Reg. 81242)

Effluent Limitations Guidelines, Pretreatment Standards, and New Performance Standards for the Centralized Waste Treatment Point Source Category. The USEPA adopted wastewater effluent limitation guidelines, pretreatment standards, and new source performance standards for the centralized waste treatment point source category. Part 437 was added to 40 C.F.R. chapter I.

PUBLIC COMMENTS

The Board adopted a proposal for public comment in this matter by order dated May 17, 2001. The proposal appeared in the June 8, 2001 issue of the *Illinois Register*. The Board accepted public comments on the proposal for a 45-day period following publication in the *Illinois Register*. The public comment period expired on July 23, 2000. The Board received no comments during the public comment period.

DISCUSSION

August 14, 2000: Effluent Limitations Guidelines, Pretreatment Standards, and New Performance Standards for the Transportation Equipment Cleaning Point Source Category

Federal Action

The USEPA adopted wastewater effluent limitation guidelines, pretreatment standards, and new source performance standards for the transportation equipment cleaning point source category on August 14, 2000. (65 Fed. Reg. 49666). Part 442 was added to 40 C.F.R. chapter I. This regulation establishes technology-based effluent limitations guidelines, new

source performance standards, and pretreatment standards for the discharge of pollutants into waters of the United States and into publicly owned treatment works (POTWs) by existing and new facilities that perform transportation equipment cleaning operations.

Transportation equipment cleaning (TEC) facilities are defined as those facilities that generate wastewater from cleaning the interior of tank trucks, closed-top hopper trucks, rail tank cars, closed-top hopper rail cars, intermodal tank containers, tank barges, closed-top hopper barges, and ocean/sea tankers used to transport materials or cargos that come into direct contact with the tank or container interior. Facilities which do not engage in cleaning the interior of tanks are not considered within the scope of this rule.

Amendment to Board Rules

The Board incorporates these amendments into its rules by adding “Subpart BQ Transportation Equipment Cleaning” to the Part 307 Sewer Discharge Criteria.

December 22, 2000: Effluent Limitations Guidelines, Pretreatment Standards, and New Performance Standards for the Centralized Waste Treatment Point Source Category

Federal Action

The USEPA adopted wastewater effluent limitation guidelines, pretreatment standards, and new source performance standards for the centralized waste treatment point source category on December 22, 2000. 65 Fed. Reg. 81242. Part 437 was added to 40 C.F.R. chapter I.

The regulation generally applies to wastewater discharges associated with the operation of new and existing centralized waste treatment facilities which accept hazardous or non-hazardous industrial wastes, wastewater, and/or used material from off-site for treatment of the wastes and/or recovery of materials from the wastes. The regulation also amends the USEPA's Guidelines Establishing Test Procedures for the Analysis of Pollutants (40 C.F.R. Part 136) to add 10 semivolatile organic pollutants to Method 625 and 6 semivolatile organic pollutants to Method 1625.

Amendment to Board Rules

The Board incorporates these amendments into its rules by adding “Subpart BL Centralized Waste Treatment” to the Part 307 Sewer Discharge Criteria. The Board also amended Section 310.107(b) to incorporate by reference the USEPA amendments to 40 C.F.R. 136 Appendix A.

Amendments to Subpart BT Landfills Point Source Category

The Board makes non-substantive amendments in Subpart BT, which applies to

sources in the landfill point source category. The Board amends the regulations by clarifying that any source in this category that introduces wastewater pollutants into a publicly owned treatment works (POTW) must comply with the general pretreatment requirements found in Subpart B of 35 Ill. Adm. Code 307 and 35 Ill. Adm. Code 310. The regulations previously incorporated by reference portions of the C.F.R. that requires that sources in this industry category must comply with 40 C.F.R part 403, which are the federal general pretreatment requirements. This amendment makes the Illinois rules more direct in language, but it does not make any substantive change in them.
