 Respondent.)

ORDER OF THE BOARD (by D. Satchell):

On September 12, 1980 the City of Staunton filed a petition requesting a variance from the 15 mg/l suspended solids limitation of NPDES permit No. IL0051128 for public water supply filter backwash and settling basin discharges. The petition lacks a specific identification of the particular provisions of the regulations from which the variance is sought [Procedural Rule 401(a)(2)]. The Board does not grant variances from permit conditions, but may order modification pursuant to a variance from the underlying regulations (Rule 914 of Chapter 3: Water Pollution). Since Petitioner has waived a hearing, an affidavit or other proof should be provided pursuant to Procedural Rule 401(b). The petition will be subject to dismissal unless the noted deficiencies are remedied with an amended petition filed within forty-five days of the date of this Order. The decision period will commence with the filing of an amended petition.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 18th day of September, 1980 by a vote of 5-0.

Christan L. Moffett, Clerk
Illinois Pollution Control Board
