Re : Public Comment re ROI-13

Dear Ms Gunn

P.c.#36

It is my desire to add my voice to those who lobby the I.P.C.B to adopt strong rules to prevent degradation of Illinois Rivers and Streams. New or proposed increases <sup>in pollution</sup> should be demonstrated to do no harm to aquatic life.

Access to Outstanding Resource Water Designation should be made easier to Acquire  
Place the burden ~~on~~ <sup>on</sup> those who would use  
our streams as sewers on to the shoulders of those  
economic gain  
Bill Freiwald
