INTERIM ORDER OF THE BOARD (by J.D. Dumelle):

An Opinion and Order of the Board was issued in this case on November 1, 1979, ordering Respondent to submit a compliance program to reduce excess infiltration into Respondent's sewer system within 90 days, including target dates for securing federal funds, if necessary. A program was received by the Pollution Control Board on January 31, 1980, and by the Illinois Environmental Protection Agency on February 11, 1980. Agency comments were received by the Board on April 14, 1980, indicating deficiencies in the program as submitted. These deficiencies were outlined in a letter mailed April 7, 1980, to Mr. George E. Doscher, president of the Highland Hills Sanitary District. The Board is unaware of any attempts by the Respondent to remedy these deficiencies.

It is therefore ordered that within 60 days of this Order the Respondent remedy these deficiencies and submit acceptable written changes in the compliance program to the Board and the Illinois Environmental Protection Agency.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify that the above Interim Order was adopted on the 10th day of July, 1980 by a vote of 5-0.

Christan L. Moffett, Clerk
Illinois Pollution Control Board
