

ILLINOIS POLLUTION CONTROL BOARD  
September 7, 1995

IN THE MATTER OF: )  
 )  
PETITION OF ABBOTT LABORATORIES ) AS 94-5  
FOR AN ADJUSTED STANDARD FROM ) (Adjusted Standard-Air)  
35 ILL. ADM. CODE 218 SUBPART RR )  
 )  
 )

ORDER OF THE BOARD (by J. Theodore Meyer):

This matter is before the Board on a joint motion for an extension of stay and a joint status report filed on September 1, 1995 by Abbott Laboratories and the Illinois Environmental Protection Agency (Agency). The parties state that the present matter is subject to a stay pending the outcome of rulemaking R94-31, an amendment to 35 Ill. Adm. Code 218 Subpart T which is expected to address petitioner's concerns.

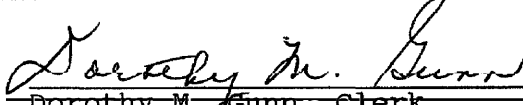

On October 28, 1994, the Agency submitted to the Board proposed rule In the Matter of: 15% ROP Plan Control Measures of VOM Emissions - Part V: Control of VOM Emissions from Lithographic Printing: Amendments to 35 Ill. Adm. Code Parts 211, 218 and 219 which was subject to first and second notice, and ultimately published as a final rule on May 19, 1995, and effective May 9, 1995.

The parties further report that on July 13, 1995 the USEPA made a finding of completeness for R94-31. Due to an error the Agency found in the proposed Federal Register notice, the Agency will have to present another State Implementation Plan submittal for R94-31, and expect to accomplish this within a few weeks. The parties accordingly request that the stay in this matter be extended.

The motion for stay is granted until November 6, 1995. The parties are directed to file status reports, either jointly or separately, no later than November 6, 1995.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above order was adopted on the 7<sup>th</sup> day of September, 1995, by a vote of 7-0.
