

ILLINOIS POLLUTION CONTROL BOARD  
September 13, 1971

GAF CORPORATION )  
 )  
 v. ) PCB 71-11S  
 ) (Supplementary)  
 ENVIRONMENTAL PROTECTION AGENCY )  
 )

ORDER

The Board, having considered the petition, recommendation, transcript and exhibits in this proceeding, hereby grants the petition of GAF Corporation for a variance, subject to the following conditions:

1. This grant of variance extends to April 30, 1972 to allow discharge of suspended solids and BOD after primary treatment into the Des Plaines River in excess of the amount allowed by regulation. This variance is granted to allow the company time to install secondary waste treatment facilities to meet all applicable effluent and water quality standards.
2. Overtime work shall be used whenever possible during the construction of the secondary treatment facilities.
3. GAF shall submit monthly progress reports to the Environmental Protection Agency on the first working day of each calendar month until the work on the secondary treatment facilities is complete. The first report shall be submitted on October 1, 1971. The progress reports shall detail progress to date and fully explain any deviations from the construction schedule.
4. All terms and conditions of the previous orders remain in full force and effect except as herein modified.
5. During the period that this variance is in effect GAF shall not increase the polluttional nature of its discharge either in strength or in volume.
6. The failure of the petitioner to adhere to any of the conditions of this Order shall be grounds for revocation of the variance.

I, Regina E. Ryan, Clerk of the Illinois Pollution Control Board, certify that the Board adopted the above Order on the 13th day of September, 1971.
