

ILLINOIS POLLUTION CONTROL BOARD
January 11, 1995

GENERAL MOTORS CORPORATION,)	
POWERTRAIN DIVISION,)	
)	
Petitioner,)	
)	
v.)	PCB 91-219
)	(Permit Appeal)
ILLINOIS ENVIRONMENTAL)	
PROTECTION AGENCY,)	
)	
Respondent.)	

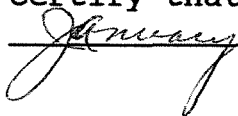

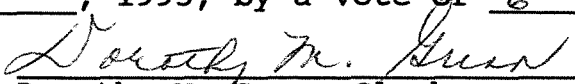

ORDER OF THE BOARD (by C.A. Manning):

On December 27, 1994, General Motors Corporation, Powertrain Division (GM) filed a status report. GM reports that several of the issues involved in this instant permit appeal will be resolved shortly, including the receipt of a final, site-specific rule for the discharge of fluoride which the Board is adopting today in R93-13. GM also reports that the company and the Illinois Environmental Protection Agency are working to resolve the remaining issues without holding a hearing.

So that the parties may resolve this case amicably, we have granted a stay until July 1, 1995 and GM has submitted a statutory decision waiver until October 31, 1995. However, because the Board requires 120 days in which to schedule and hold a hearing should one become necessary, we are setting the next status report due date for June 8, 1995, and at that time, if GM does not wish to go to hearing, another motion for stay and a decision deadline waiver must be filed. If a waiver is not received, this case will be set for hearing at the June 15, 1995 Board meeting.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above order was adopted on the 11th day of January, 1995, by a vote of 6-0.

 Dorothy M. Gunn, Clerk
 Illinois Pollution Control Board
