ORDER OF THE BOARD (by M. McFawn):

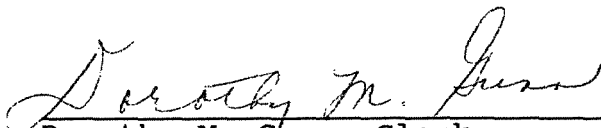

On November 3, 1994, the Illinois Environmental Protection Agency (Agency) filed a motion for extension of time to file the Agency recommendation in this matter. The Agency sought to extend the deadline for filing its recommendation in this case from November 7, 1994 until November 28, 1994. On November 22, 1994, the Agency filed a second motion, seeking to further extend the deadline for filing its recommendation until December 19, 1994.

In support of its November 3, 1994 motion, the Agency stated that its technical staff had not yet completed the technical analysis necessary for preparing its recommendation, and that the personnel necessary to perform this analysis would be unavailable until November 7, 1994. In its November 22, 1994 motion, the Agency asserts that the technical personnel responsible for preparing the technical analysis will be unavailable for health reasons, and that it is necessary to seek technical assistance from other personnel. The Agency further asserts that no one will be prejudiced by this extension, since petitioner has waived the decision due date until May 19, 1995.

The Agency's motion for extension of time to file the Agency recommendation is hereby granted. The recommendation is now due on or before December 19, 1994.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above order was adopted on the 1st day of December, 1994, by a vote of 7-0.

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
