ORDER OF THE BOARD (by J. Yi):

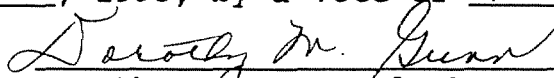

On December 14, 1994, Gunite Corporation filed a Petition for Review regarding its objection to the Illinois Environmental Protection Agency's (Agency) modification of NPDES permit NO. IL0068284. The basis for the petition is that the Agency's imposition of total chlorine limitation for Outfalls 001 and 002 has no "relevance," and is "de minimis," to the anticipated discharge of total residual chlorine.

On December 19, 1994, the Agency filed a motion for a forty-six day extension of time in which to file its record in this appeal. The Agency requests leave to file the record on February 28, 1995. Petitioner has not filed a response. In support of its motion, the Agency notes that negotiations in this matter have been ongoing, and that the parties believe that the issues involved may be resolved "in short order". The Agency notes that the decision deadline has been waived to July 27, 1995.

The Board grants the Agency's motion for extension of time to file its record. The Agency's record in this matter is now due on February 28, 1995.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above order was adopted on the 23rd day of February, 1995, by a vote of 7-0.

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
