ORDER OF THE BOARD (by M. Nardulli):

This matter is before the Board on a complaint filed by Karen and Scott Thomas (Thomases) on October 16, 1991. On August 5, 1994, the Board found that the noise and dust emanating from respondent's property unreasonably interfered with complainants' enjoyment of life. Respondent was ordered to examine the economic reasonableness and technical feasibility of any control options which it may deem appropriate to reduce the noise and dust emissions from its facility including those set forth by Mr. Gregory Zak in his testimony. The above mentioned studies were to be completed no later than December 1, 1993, and filed with the Board and served on the complainant, by that date. Complainants were directed to file a response to the studies no later than January 15, 1994.

On January 14, 1994, complainants filed a motion for a short extension of time, until January 19, 1994, to file the response. The Board hereby grants the motion.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, do hereby certify that the above opinion and order was adopted on the 3rd day of February, 1994, by a vote of 7-0.

  
Dorothy M. Gunn, Clerk  
Illinois Pollution Control Board
