Respondent.)	

ORDER OF THE BOARD (by G. T. Girard):

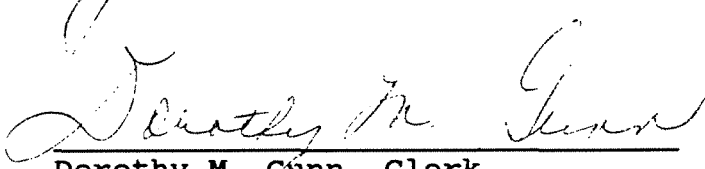

On January 10, 1994, the parties filed a joint status report in response to the Board's order of November 18, 1993. The status report notes that the parties have reached an agreement on the limitations for sulfate and copper in Borden Chemicals and Plastics' NPDES permit. The parties are in the process of developing a workable solution concerning ammonia nitrogen and resolving issues related to the expiration date of the permit. The parties believe that these issues can be resolved before June 30, 1994. The parties note that if a resolution is not obtained prior to June 30, 1994, a hearing will be requested in this matter.

The parties are directed to file additional status reports in this matter on or before July 8, 1994.

IT IS SO ORDERED.

E. Dunham abstained.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, do hereby certify that the above order was adopted on the 20th day of January, 1994, by a vote of 6-0.

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
