) (Provisional Variance)
 ILLINOIS ENVIRONMENTAL)
 PROTECTION AGENCY,)
)
 Respondent.)

ORDER OF THE BOARD (by C. A. Manning):

Pursuant to Section 35(b) of the Environmental Protection Act (Act) (415 ILCS 5/35(b)), Kelley Williamson Company has requested that the Illinois Environmental Protection Agency (Agency) recommend that the Board grant a provisional variance to allow two of Kelley Williamson Company's gasoline dispensing operations (service stations) to continue operating even though they did not install operational vapor recovery equipment by November 1, 1993. Such request for a provisional variance and the Notification of Recommendation was filed with the Board by the Agency on Tuesday, January 18, 1994. On Wednesday, January 19, 1994, the Agency separately filed attachment 2, which was missing from the original recommendation. Pursuant to Section 35(b) of the Act, the Board must issue the variance within two (2) days of this filing.

Specifically, the Agency recommends that we grant Kelley Williamson Company a forty-five (45)-day provisional variance for two of its facilities located in McHenry County in the Chicago metropolitan statistical area from the Stage II vapor recovery requirements, as set forth in 35 Ill. Adm. Code 218.586, for the period beginning December 28, 1993, and continuing for forty-five (45) days or until the required vapor recovery equipment is installed, whichever comes first.

The Agency's provisional variance recommendation states that Kelley Williamson Company has requested a provisional variance on behalf of its service stations in the Chicago area, located as follows:

<u>County</u>	<u>City or Village</u>	<u>Street Address</u>
McHenry	Marengo	21801 West Grant
McHenry	Woodstock	1144 Seminary Avenue

Upon receipt of the request, the Agency issued its recommendation, notifying the Board that the failure to grant the requested forty-five (45)-day provisional variance would impose an arbitrary or unreasonable hardship on Petitioner. The Agency

recommendation states that installation of Stage II vapor recovery equipment at the Kelley Williamson Company facilities is not possible by the November 1, 1993 deadline for compliance because Tokheim is in the last stages of CARB approval for vacuum assist vapor recovery equipment for its gasoline dispensers, and Kelley Williamson Company has contracted for the purchase and installation of that equipment, thus that equipment was not available before the compliance deadline.

Provisional variances are by their very nature temporary. The responsibilities of the Agency and the Board in these short-term provisional variances are different from the responsibilities in standard variances. (See 415 ILCS 5/35(b) & (c)). In provisional variances it is the responsibility of the Agency to make the technical determinations and finding of arbitrary or unreasonable hardship. The Board's responsibility is to adopt a formal Order, to assure the formal maintenance of the record, to assure the enforceability of the variance, and to provide notification of the action by a press release.

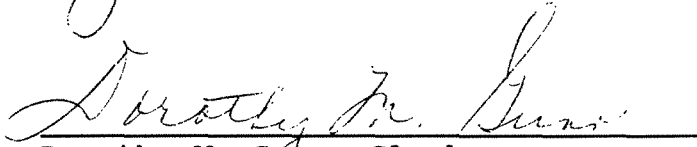

Having received the Agency recommendation notifying the Board that a denial of the requested relief would impose an arbitrary or unreasonable hardship, the Board hereby grants Petitioner a provisional variance from 35 Ill. Adm. Code 218.586, subject to the following conditions:

1. The term of this provisional variance shall commence on December 28, 1993, and it shall expire on the date the Petitioner completes the required installation of vacuum assist Stage II vapor recovery equipment, or after forty-five (45) days have elapsed, whichever comes first;
2. The Petitioner shall notify the Agency of the installation of the vapor recovery equipment, by sending notification addressed as follows:

Mr. Terry Sweitzer, P.E.
Manager, Air Monitoring Section
Illinois Environmental Protection Agency
Division of Air Pollution Control
P.O. Box 19276
Springfield, Illinois 62794-9276

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, do hereby certify that the above order was adopted on the 20th day of January, 1994, by a vote of 7-0.

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
