ORDER OF THE BOARD (by R.C. Flemal):

On November 4, 1993, LTV Steel Company (LTV) filed a status report and motion to stay this proceeding. No status report was received from the Illinois Environmental Protection Agency. LTV states that its thermal study has been performed and reports prepared. LTV and its engineers have now submitted the reports to the Illinois Environmental Protection Agency (Agency) along with a draft petition for adjusted standard. LTV estimates that in 30 days it intends to submit to the Board a petition for adjusted standard regarding the thermal discharges. LTV requests that the Board continue to stay this proceeding for an additional 120 days. LTV reports that the Agency has no objection to the granting of the motion. An open waiver was previously filed in this proceeding.

The Board finds that the status report indicates sufficient progress toward resolution of this proceeding. The Board grants the motion to stay and directs the parties to file a status report with the Board and hearing officer not later than February 10, 1994. Such status report shall include the date of the expected resolution of this matter.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above order was adopted on the 18<sup>th</sup> day of November, 1993, by a vote of 5-0.
