ORDER OF THE BOARD (by C. A. Manning):

Pursuant to Section 35(b) of the Environmental Protection Act (Act) (415 ILCS 5/35(b)), T.M.L. Associates Inc. d/b/a Amoco Food Shop The Crossing has requested that the Illinois Environmental Protection Agency (Agency) recommend that the Board grant a provisional variance to allow T.M.L. Associates Inc. d/b/a Amoco Food Shop The Crossing's gasoline dispensing operation to continue operating even though it has not installed required operational vapor recovery equipment by November 1, 1993. Such request for a provisional variance and the Notification of Recommendation was filed with the Board by the Agency on Tuesday, November 16, 1993. Pursuant to Section 35(b) of the Act, the Board must issue the variance within two (2) days of this filing.

Specifically, the Agency recommends that we grant T.M.L. Associates Inc. d/b/a Amoco Food Shop The Crossing a forty-five (45)-day provisional variance for its facility located in Kane County in the Chicago metropolitan statistical area from the Stage II vapor recovery requirements, as set forth in 35 Ill. Adm. Code 218.586, for the period beginning November 1, 1993, and continuing for forty-five (45) days or until the required vapor recovery equipment is installed, whichever comes first.

The Agency's provisional variance recommendation states that T.M.L. Associates Inc. d/b/a Amoco Food Shop The Crossing has requested a provisional variance on behalf of its service station in the Chicago area, located as follows:

<u>County</u>	<u>City or Village</u>	<u>Street Address</u>
Kane	Elburn	Routes 47 & 38

Upon receipt of the request, the Agency issued its recommendation, notifying the Board that the failure to grant the requested forty-five (45)-day provisional variance would impose an arbitrary or unreasonable hardship on Petitioner. The Agency recommendation states that installation of Stage II vapor

recovery equipment at the T.M.L. Associates Inc. d/b/a Amoco Food Shop The Crossing facility is not possible by the November 1, 1993 deadline for compliance because vapor recovery equipment for its gasoline dispensers and the crews necessary to install it will not be available before the compliance deadline.

Provisional variances are by their very nature temporary. The responsibilities of the Agency and the Board in these short-term provisional variances are different from the responsibilities in standard variances. (See 415 ILCS 5/35(b) & (c)). In provisional variances it is the responsibility of the Agency to make the technical determinations and finding of arbitrary or unreasonable hardship. The Board's responsibility is to adopt a formal Order, to assure the formal maintenance of the record, to assure the enforceability of the variance, and to provide notification of the action by a press release.

Having received the Agency recommendation notifying the Board that a denial of the requested relief would impose an arbitrary or unreasonable hardship, the Board hereby grants Petitioner a provisional variance from 35 Ill. Adm. Code 218.586, subject to the following conditions:

1. The term of this provisional variance shall commence on November 1, 1993, and it shall expire on the date the Petitioner completes the required installation of vacuum assist Stage II vapor recovery equipment, or after forty-five (45) days have elapsed, whichever comes first;
2. The Petitioner shall notify the Agency of the installation of the vapor recovery equipment, by sending notification addressed as follows:

Mr. Terry Sweitzer, P.E.
Manager, Air Monitoring Section
Illinois Environmental Protection Agency
Division of Air Pollution Control
P.O. Box 19276
Springfield, Illinois 62794-9276

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, do hereby certify that the above order was adopted on the 18th day of November, 1993, by a vote of 5-0.

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
