ORDER OF THE BOARD (by C.A. Manning):

On May 23, 1991, Olin Corporation (Olin) filed a petition for hearing to review certain conditions contained in modifications made by the Illinois Environmental Protection Agency (Agency) of Olin's closure plans for several different hazardous waste units at the East Alton, Illinois facility. On September 20, 1993, pursuant to Board order, the parties filed a joint status report in this proceeding. The parties report that they have been actively pursuing settlement and that they have agreed in principle to coordinate the closure of several of the units involved in this appeal with the RCRA Facility Investigation planned as part of the facility's Part B hazardous waste permit. The parties also state that pursuant to settlement discussions, on September 7, 1993, Olin submitted to the Agency, a modified closure/post-closure plan for three of the units which are the subject of this appeal. A certificate of clean closure for the other units which are the subject of this appeal were previously submitted to the Agency. The Agency is currently reviewing the modified closure/post-closure plan and the closure certifications. Finally, the parties state that if an agreement is reached on the closure certifications and details of the modified closure/post-closure plan, Olin will move for dismissal of this appeal.

The parties are ordered to file a status report in this matter on or before December 27, 1993, in the event this appeal has not been dismissed.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above order was adopted on the 25th day of September, 1993, by a vote of 7-0.

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
