                                  Respondent.            )

ORDER OF THE BOARD (by J.C. Marlin):

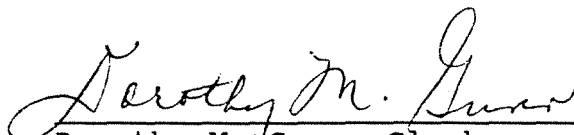

On July 1, 1992, General Electric (GE) filed a status report, "with the agreement of" the Agency, as directed by the Board's order of May 7, 1992. GE reports that it and the Agency met in Springfield on June 1, 1992 to discuss proposals for completion of closure activities and settlement of this permit appeal. On June 26, 1992, GE submitted to the Agency a proposal outlining the steps that GE will take to complete the closure of GE's hazardous waste drum storage area.

GE reports that it expects the Agency will discuss this proposal with GE within the next few weeks so that a final draft closure plan amendment can be submitted to the Agency for approval. GE also states that the hearing officer indicated that he will be scheduling a hearing for the end of September, in the event that the parties cannot agree on a final plan for closure activities.

The parties are directed to file an updated status report on or before September 15, 1992 in the event that no hearing has been scheduled in this matter at that time.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above order was adopted on the 9<sup>th</sup> day of July, 1992, by a vote of 6-0.
