

ILLINOIS POLLUTION CONTROL BOARD
September 12, 1991

IN THE MATTER OF:)
)
RCRA UPDATE, USEPA REGULATIONS) (Identical in Substance Rules)
(7-1-90 THROUGH 12-31-90)) R91-1

ORDER OF THE BOARD (by J. Anderson):

On August 8, 1991, the Board entered a final Opinion and Order in this matter, allowing until September 9, 1991, for the filing of post-adoption comment. The Board has received no such comment, but will modify the final Order on its own motion.

As was discussed on p. 27 of the August 8 Opinion, the USEPA wood preserving rules make reference to a "Method 8290" in "SW 846". However, in its corrections to the wood preserving rules, USEPA indicated that this method was not actually in the current version of SW 846. At the time the Opinion was written, the Board had learned that the proposed method was available from the USEPA Docket Clerk. The Board has now received a copy of the document, and will modify the text of 35 Ill. Adm. Code 720.111 to agree with the title and number of the document actually received. The entry is revised to read as follows:

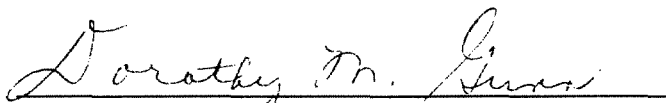

USEPA. Available from USEPA, Number F-90-
WPWF-FFFFF, Room M2427, 401 M Street SW,
Washington, D.C. 20460, (202) 475-9327:

"Test Method 8290: Procedures for the
Detection and Measurement of PCDDs and
PCDFs", EPA/530-SW-91-019 (January, 1991)

The Board directs that the modified rules be filed with the Administrative Code Division and published in the Illinois Register as soon as possible.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, do hereby certify that the above Order was adopted on the 12th day of September, 1991, by a vote of 7-0.

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
