PM-10 EMISSION LIMITS FOR THE)
PORTLAND CEMENT MANUFACTURING) R91-6
PLANT AND ASSOCIATED QUARRY) (Rulemaking)
OPERATIONS LOCATED SOUTH OF)
THE ILLINOIS RIVER IN)
LASALLE COUNTY, ILLINOIS.)

ORDER OF THE BOARD by (B. Forcade):

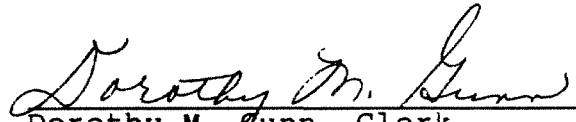

This matter comes before the Board on a Motion for Extension of the Comment Period filed on June 19, 1991 by the Illinois Environmental Protection Agency ("Agency"). Counsel for the one affected facility, Lone Star, has agreed to this motion.

The Agency states that the issue of appropriate measurement of condensible PM-10 is not only being worked out between the Agency and Lone Star but the Agency has sought federal clarification of relevant issues. This clarification is needed to assure continued federal approval in light of possible changes to the proposed compliance determination subsection of Section 212.423.

This motion for extension of the comment period is granted. The comments will now be due July 26, 1991. If any further extension of time is needed, these adjustments can be made by the Hearing Officer.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 20th day of June, 1991, by a vote of 7-0.

Dorothy M. Gunn, Clerk
Illinois Pollution Control
