DISSENTING OPINION (by J. C. Marlin):

I believe that Special Condition 3 should have been deleted from this permit. It is difficult to understand how fabri-soil can be fairly tested as an alternative to 6 inches of daily soil cover if its use is prohibited on weekends.

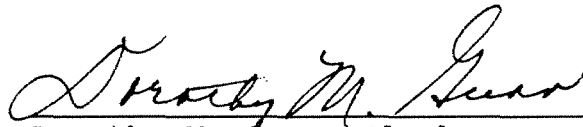

The Agency arguments on burrowing animals and wind are unconvincing. Such activity could just as easily occur during week nights. The experimental use in this instance should be as close to actual conditions as possible.

For these reasons, I dissent.

John C. Marlin

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above Dissenting Opinion was filed on the 13th day of November, 1990.
