) (Variance)
 ILLINOIS ENVIRONMENTAL)
 PROTECTION AGENCY,)
)
 Respondent.)

ORDER OF THE BOARD (by J. Theodore Meyer):

This matter is before the Board on an October 27, 1989 motion for clarification, filed by petitioner Roadmaster Industries, Inc. Roadmaster seeks clarification of the Board's October 18, 1989 order, which extended Roadmaster's variance. The Illinois Environmental Protection Agency has not filed any response.

On October 18, 1989, the Board granted Roadmaster's motion to extend its variance from 35 Ill. Adm. Code 215.204(j)(3), which governs emissions of volatile organic material (VOM). Roadmaster now asks the Board to clarify that order. Roadmaster states that it had petitioned for extension of the variance and for a modification of that variance, but that the Board's October 18 order did not address the request for modification. The request for modification is based upon a change in the methods used to calculate VOM emissions, from a volumetric method to a solids-based method. Therefore, Roadmaster asks the Board to reissue the variance with the emission limitations recalculated to reflect the change in calculation methods.

Roadmaster's motion for clarification is granted. The variance is revised to reflect the calculation change. Roadmaster's VOM emissions from its existing black and white flowcoating operations are not to exceed a weekly average of 5.9 pounds per gallon of coating. The variance previously limited the emissions to 3.9 lb/gal for the white flowcoat line and to 4.8 lb/gal for the black flowcoat line.

ORDER

Petitioner, Roadmaster Corporation, is hereby granted variance from 35 Ill. Adm. Code 215.204(j) until October 18, 1990, or until completion of the rulemaking process in R88-19, whichever occurs first. The variance is subject to the following conditions:

1. Roadmaster Corporation's Olney Plant shall not omit volatile organic material from its existing black and white flowcoating operations greater than a weekly average of 5.9 pounds per gallon of coating.
2. Roadmaster will conduct, or authorize, a study to examine the possibility of using internal offset to reach compliance. This study shall be concluded by May 31, 1989 and the results shall be reported to:

Air Pollution Control Division
Illinois Environmental
Protection Agency
2200 Churchill Road
Springfield, Illinois 62794

3. Roadmaster shall outline to search for compliance coatings and shall submit quarterly progress reports during the variance period, detailing its progress in coming into compliance, to the Agency at the address in condition (2) above.
4. If at any time during this variance period, Roadmaster is informed by paint manufacturers that a coating material for the white flowcoater cannot be formulated, Roadmaster be required to proceed with an alternate compliance strategy during the term of the variance and be required to initiate the strategy by June 30, 1989.
5. Within 45 days of the date of this Order, Petitioner shall execute and forward to the Agency at the address in condition (2) above, a Certification of Acceptance and Agreement to be bound to all terms and conditions of this variance. The 45-day period shall be held in abeyance during any period that this matter is being appealed. If the Petitioner fails to execute and forward the agreement within 45 days, the variance shall be void. The form of said Certification shall be as follows:

CERTIFICATION

I, (We), _____,
having read the Order of the Illinois Pollution Control Board, in
PCB 87-136, dated November 15, 1989, understand and accept the
said order, realizing that such acceptance renders all terms and
conditions thereto binding and enforceable.

Petitioner

By: Authorized Agent

Title

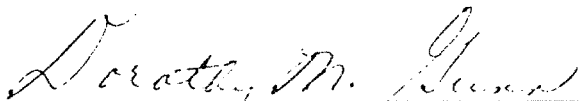

Date

Section 41 of the Environmental Protection Act, Ill. Rev. Stat. 1985 ch. 111½ par. 1041, provides for appeal of final Orders of the Board within 35 days. The Rules of the Supreme Court of Illinois establish filing requirements.

IT IS SO ORDERED.

J. Anderson and J. D. Dumelle concurred.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 15th day of November, 1989, by a vote of 7-0.

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
