 PROTECTION AGENCY, )  
 )  
 Respondent. )

ORDER OF THE BOARD (by B. Forcade):

On April 20, 1989, Rockford Products Company filed a petition for variance for its facility located in Rockford, Illinois. That petition is deficient in that it fails to provide:

1. A clear and complete statement of the precise extent of the relief sought, including specific identification of the particular provisions of the regulations or Board Order from which the variance is sought;
- 2) A detailed description of the existing and proposed equipment or proposed method of control to be undertaken to achieve full compliance with the Act and regulations, including a time schedule for the implementation of all phases of the control program from initiation of design to program completion and the estimated costs involved for each phase and the total cost to achieve compliance;
- 3) An assessment, with supporting factual information, of the environmental impact that the variance will impose on human, plant and animal life in the affected area, including, where applicable, data describing the existing air and water quality which the discharge may affect;
- 4) A statement of consistency with federal law as required by Section 104.122; and

- 5) a statement on whether or not a hearing on the petition is desired by petitioner, or, in the alternative, a statement waiving a hearing accompanied by such affidavits or other proof in support of the material facts alleged in the petition as the petitioner may submit....

Unless an amended petition is filed within 45 days of the date of this Order, curing the above-noted defects, this matter will be subject to dismissal.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 27<sup>th</sup> day of April, 1989, by a vote of 7-0.

  
Dorothy M. Gunn, Clerk  
Illinois Pollution Control Board
