 Respondent. )

ORDER OF THE BOARD (by J. Anderson):

On February 19, 1988, the City of Geneva (Geneva) filed a Motion for Correction and Reconsideration. The Environmental Protection Agency did not file a reply.

On July 16, 1987, the Board granted a variance, until no later than December 15, 1987 and limited to 13 named developments, from 35 Ill. Adm. Code 602.105(a) and 602.106(b), Standards of Issuance and Restricted Status respectively, as related to violation of the 5 pCi/l combined radium standard.

On October 1, 1987, the Board granted Geneva's August 20, 1987 motion to reconsider, but denied Geneva's request to modify the expiration dates of the variance and to remove the limitation regarding the 13 listed developments.

On February 4, 1988, the Board modified the July 16, 1987 variance by adding two more developments to the original 13; this action was taken in response to Geneva's January 4, 1988 motion to modify by changing the 13 listed developments limitation to a population equivalent approach. The instant motion requests that the Board make certain corrections in its February 4, 1988 Order and reconsider its denial of Geneva's population equivalent approach.

The Board grants Geneva's motion for corrections of its February 4, 1988 Order, but denies Geneva's motion for reconsideration.

The corrections are as follows:

On P. 2, 3rd paragraph, 2nd sentence.

It would appear, then, that pursuant to the original variance, Geneva ~~plans~~ requests authorization to provide water service to more than double its 1985 population.

On p. 3, last sentence

However, the Board recognizes that the new petition does contain a compliance plan, and was filed seven-months earlier ~~(not ten months as stated by Geneva in its motion)~~ than required in the present variance schedule.

IT IS SO ORDERED.

J. D. Dumelle concurred.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 10~~4~~ day of March, 1988, by a vote of 7-0.
