) (On Remand)
ILLINOIS ENVIRONMENTAL)
PROTECTION AGENCY,)
)
Respondent.)

ORDER OF THE BOARD (by J.D. Dumelle):

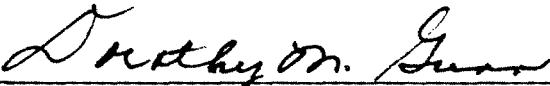

On September 12, 1986, the Central Illinois Public Service Company (CIPS) filed a petition for review of a certain condition imposed by the Illinois Environmental Protection Agency (Agency) in the renewal of the air operating permit for its Meredosia Station Unit 3. By Opinion and Order dated March 19, 1987, and for the reasons set forth therein, the Board affirmed the Agency's imposition of the condition in the permit. CIPS filed an appeal of the Board's Order.

On March 2, 1988, in the case of Central Illinois Public Service Company v. Illinois Pollution Control Board and Illinois Environmental Protection Agency, No. 4-87-0279 (4th Dist.), the Appellate Court issued its decision reversing the Board's decision with directions to order the Agency to delete the condition, "SO₂ emissions shall not exceed 6.0 lbs. per million btu" from CIPS' operating permit for the steam generating unit in question (Meredosia, Illinois).

The Board hereby orders the Agency to delete Condition 2 in Permit I.D. No. 137805 AAA issued August 8, 1986 for the Meredosia Station owned by CIPS.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 21st day of April, 1988 by a vote of 7-0.

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
