ORDER OF THE BOARD (by B. Forcade):

On January 30, 1987, the City of Rock Island filed a Petition for Variance, seeking relief from regulations on restricted status and standards for permit issuance as those regulations pertain to limitations on Trihalomethanes ("THM") That petition is deficient in that:

On page 5, the petition states that THM samples taken since 1981 have ranged from 0.033 to 0.346 mg/l. The petition fails to provide the exact dates and locations of each sample, as well as the individual test results so that the Board may properly evaluate the extent of the problem.

Unless an amended petition is filed within 45 days of the date of this Orlder, curing the above-noted defect, this matter will be subject to dismissal.

Petitioner is requested to provide the risk factor estimates issued by the United States Environmental Protection Agency when promulgating the national trihalomethane standard.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the day of day of 1987, by a vote of

Dorothy M./Gunn, Clerk

Illinois Pollution Control Board
