 ILLINOIS ENVIRONMENTAL )  
 PROTECTION AGENCY, )  
 )  
 Respondent. )

ORDER OF THE BOARD (by B. Forcade):

On June 10, 1985, Petitioner LTV Steel Company, Inc. ("LTV"), formerly known as Republic Steel Corporation and LTV Steel Company, filed a Motion to Amend the Board's January 10, 1985, Order granting the variance in the above-captioned matter. Respondent Illinois Environmental Protection Agency ("Agency") filed a response on June 26, 1985, stating no objection to this motion.

Petitioner requests that the Board add, as a condition, an emission limitation of 0.06 gr/dscf for the term of the variance. Additionally, Petitioner requests that conditions 2 and 3 of the Order be amended to allow LTV to apply for an operating permit and to file a signed certification of acceptance and agreement to the terms and conditions of the variance instantler. LTV states that the requested emission limitation is supported in the record and is required by United States Environmental Protection Agency in order to obtain approval as a revision to the State Implementation Plan. LTV requests modification of conditions 2 and 3 because, due to an oversight, neither the permit application nor the certification were tendered to the Agency.

The Board will grant LTV's motion to amend the January 10, 1985, Order. The Board will impose a 0.06 gr/dscf limitation and will provide until July 15, 1985, for timely application and filing of the above-mentioned documents. The amended Order is provided in full below.

ORDER

LTV Steel Company, Inc. ("LTV") is hereby granted a variance from 35 Ill. Adm Code 212.451 as it applies to the 44-inch hot scarfing machine at Petitioner LTV's South Chicago Works, subject to the following conditions:

1. This variance shall expire July 1, 1986, or 60 days after any final Board Order or a request for site-specific regulatory relief for LTV's 44-inch hot scarfing machine located at its South Chicago Works, whichever is earlier.
2. During the period of this variance, emissions from the above-mentioned hot scarfing machine shall not exceed 0.06 gr/dscf.
3. LTV shall apply to the Illinois Environmental Protection Agency ("Agency") for an operating permit for its hot scarfing machine no later than July 15, 1985.
4. LTV shall execute a Certification of Acceptance and Agreement to be bound to all terms and conditions of this variance, including the emission limitations set forth in this amended order. Said Certification shall be submitted to the Agency at 2200 Churchill Road, Springfield, IL 62706, no later than July 15, 1985. The form of the said Certification shall be as follows:

CERTIFICATION

I, (We) \_\_\_\_\_, hereby accept and agree to be bound by all terms and conditions of the Order of the Pollution Control Board in PCB 84-111, June 27, 1985.
