)
 v.) PCB 83-164
)
 Illinois Environmental Protection)
 Agency,)
)
 Respondent.)

CONCURRING OPINION (by J. Marlin):

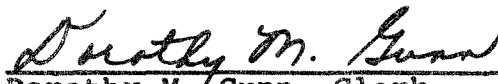

It does not seem reasonable for the Board to impose a restriction on West Dundee prohibiting non-residential water hook-ups of 1,000 gallons per month or more. This restriction will prevent the opening of even small establishments which deal with food or have heavy walk in business. The level of barium in the water supply, though high, does not warrant this action for the short period this variance will be in force.

This should not, however, be construed as condoning West Dundee's failure to provide low barium water to as many residents as possible when it had the means to do so.

John C. Marlin (D.S.
Board Member

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above Concurring Opinion was filed this 5th day of July, 1984.

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
