 SOUTH PALOS TOWNSHIP SANITARY )  
 DISTRICT, )  
 )  
 Respondent. )

ORDER OF THE BOARD (by B. Forcade):

On August 6, 1984, South Palos filed a motion to extend time for compliance with paragraph 4 of the Board's May 29, 1984, Order. That paragraph required South Palos to submit a plan or program for identification and elimination of excessive sewer flows to this Board not later than August 27, 1984. South Palos requests that the plan submission date be extended by 90 days. South Palos argues that final corrective action to eliminate excess flows by September, 1985, as anticipated by the Board's Order, cannot reasonably be achieved due to wet weather conditions during certain months. On August 9, Cupp objected to the extension of time.

South Palos' motion provided arguments concerning the final compliance date of September, 1985. No reasons have been advanced for extending the plan submission date of August, 1984. The Board will extend the plan submission date until September 18, 1984. Any arguments and supporting data for a different compliance date, other than September, 1984, may be addressed in that plan. After review by complainant and the Agency, the Board will determine whether any extension of the date for ultimate compliance is necessary and justified.

The date for submission of the districtwide plan or program, contained in paragraph 4 of the Board's May 29, 1984, Order is hereby extended to require submission not later than September 18, 1984.

IT IS SO ORDERED.

Board Member J. D. Dumelle concurred.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 22 day of August, 1984 by a vote of 6-0.

  
Dorothy M. Gunn, Clerk  
Illinois Pollution Control Board
