Adopted Rule. Final Order.

OPINION AND ORDER OF THE BOARD (by N.J. Melas):

This matter is before the Board on a May 8, 1998 "Motion for Acceptance" (motion) from the Illinois Environmental Protection Agency (Agency). In the motion, the Agency submitted a proposal requesting several changes to the rules on the transportation of hazardous waste so that Illinois' procedures conform to an emerging national standard. On November 2, 1998, the Agency filed a "Motion to Sever the Docket and Proposed Amendments to Parts 809 and 807" (motion to sever). In the motion to sever, the Agency requested that the Board separate the rules on used oil transportation and used oil management facilities from the rules on hazardous waste transportation. The rules on used oil transportation and used oil management facilities are being addressed in a separate docket, R99-18.

On December 17, 1998, the Board adopted the proposed hazardous waste transportation rules, with technical revisions, for first-notice publication in the *Illinois Register* and identified the docket as R98-29. Subsequently, the amendments to Parts 808, 809, and 811 of the Board's rules were published in the *Illinois Register* (21 Ill. Reg. 78 (January 4, 1999)). According to the Illinois Administrative Procedure Act (APA) (5 ILCS 100/1-1 *et seq.* (1996)), the first-notice period ended on February 19, 1999. Pursuant to Section 28.5 of the Illinois Environmental Protection Act (Act) (415 ILCS 5/28.5) the record does not close until 14 days after the availability of hearing transcripts. The transcript from the final hearing in this matter was available on March 5, 1999. Consequently, the record and public comment period closed on March 19, 1999. No public comments were received during the first-notice period with the exception of several minor editorial changes suggested by the Joint Committee on Administrative Rules (JCAR).

On April 15, 1999, the Board adopted its opinion and order at second notice. The second-notice opinion and order reflected the minor editorial changes suggested by JCAR, but otherwise was similar to the first-notice opinion and order.

By today's action, the Board adopts the rules proposed at second notice with some further minor editorial changes suggested by JCAR. On May 18, 1999, JCAR formally approved the text of the rules herein without objection.

The Board's responsibility in this matter arises from the Act (415 ILCS 5/1 *et seq.* (1996)). The Board is charged therein to "determine, define and implement the environmental control standards applicable in the State of Illinois." 415 ILCS 5/5(b) (1996).

### STATUTORY/REGULATORY FRAMEWORK

In 1990, Congress amended the Hazardous Materials Transportation Uniform Safety Act and four years later passed the Hazardous Materials Transportation Authorization Act of 1994 (HMTAA). Exh. 1 (Walters) at 1. Congress enacted the legislation in order to address the numerous similar hazardous waste transport regulations at the state level. *Id.* Despite the similarity of the regulations, interstate transporters had to apply for and carry different permits in several states and pay the associated fees in those states. Exh. 1 (Walters) at 1; PC 1 at 1.

The HMTAA called for the creation of a working group to set uniform national standards for the transportation of hazardous waste and to examine state permitting requirements. 49 U.S.C. § 5119(a) (1994). The HMTAA also directed the United States Secretary of Transportation to promulgate regulations to carry out the recommendations of the working group. 49 U.S.C. § 5119(c) (1994). The working group first met in early 1992 and became known as the Alliance for Uniform HazMat Transportation Procedures (Alliance). Exh. 1 (Walters) at 4. The Alliance drafted the uniform standards and submitted a report to the United States Secretary of Transportation in late 1993. Exh. 1 (Walters) at 5.

The Alliance requested that the Federal Highway Administration conduct a two-year pilot project to test the Alliance's recommended uniform standards. Exh. 1 (Walters) at 5. The four pilot states were Minnesota, Nevada, Ohio, and West Virginia. *Id.* Based on the pilot project, the Alliance modified the recommended uniform standards. *Id.*

Even though the federal regulations are not yet in place, the HMTAA preempted the existing Illinois hazardous waste transporter laws in the Act. Exh. 1 (Walters) at 2. The federal preemption nullifies Illinois' old distribution of hazardous waste permitting fees which do not comply with the HMTAA. 49 U.S.C. § 5119(c)(2) (1994); 49 U.S.C. § 5125(g) (1994). In May 1996, Cynthia Hilton, Executive Director of the Association of Waste Hazardous Materials Transporters (AWHMT) informed the Agency about the impending federal preemptive law and persuaded state officials to adopt the federal program in order to avoid a lawsuit. St. of Reas. at 3; Exh. 1 (Walters) at 5.

The Illinois General Assembly passed the enabling legislation (Senate Bill 378) which was signed into law by former Governor Jim Edgar. See Pub. Act 90-219, eff. July 25, 1997. Public Act 90-219 amends Sections 22, 22.01, and 22.2 of the Act and implements the Uniform State Hazardous Materials Transportation Registration and Permit Program (Uniform Program). 415 ILCS 5/22, 5/22.01, 5/22.2 (1996). The law also set July 1, 1998, as the implementation date for the Uniform Program. 415 ILCS 5/22.2(1-5)(2) (1996). The AWHMT, the Alliance, the Illinois Trucking Association, Waste Management, and Safety Kleen all supported the legislation. St. of Reas. at 3; Exh. 1 (Walters) at 5-6.

The Agency drafted a proposal for the Illinois Uniform Program and submitted it to the Board on May 8, 1998. See In the Matter of: Nonhazardous Special Waste Hauling and the Uniform Program: 35 Ill. Adm. Code 809 (Pursuant to P.A. 90-219) (May 21, 1998), R98-29, slip op. at 1. The Uniform Program primarily affects Part 809 of the Board's rules, but there are also minor changes to Parts 808, 811, and 855 in order to establish consistency with the revised Part 809. On May 21, 1998, the Board accepted the matter for hearing but ruled that the amendments to Part 855 of the Illinois Administrative Code must be promulgated by the Agency because Part 855 is an Agency rule. *Id.*

### PROCEDURAL HISTORY

Two regular hearings were held in this matter before Board Hearing Officer John Knittle and former Board Member Joseph C. Yi. The first hearing was held on July 21, 1998, in Springfield. The Agency, represented by Assistant Counsel Kimberly A. Robinson, presented witnesses David Walters, Acting Manager of the Solid Waste Management Section, and Edwin C. Bakowski, Manager of the Permit Section, who both summarized their respective prefiled testimonies. See Exh. 1. The second hearing was held on July 31, 1998, in Chicago, where Robinson, Walters and Bakowski testified again.<sup>1</sup>

Pursuant to Public Act 90-489, effective January 1, 1998, the Board requested that the Department of Commerce and Community Affairs (DCCA) conduct an economic impact study for R98-29. DCCA has 30 to 45 days after such a request to produce a study of the economic impact of the proposed rules. On July 26, 1998, DCCA issued a letter notifying the Board that it would not conduct an economic impact study for docket R98-29 because it lacked the technical and financial resources to conduct any economic studies on rules pending before the Board during the remainder of fiscal year 1999. On February 25, 1999, an economic hearing was held in this matter in Chicago before Board Hearing Officer Joel Sternstein and Board Member Nicholas J. Melas. The purpose of this hearing was to entertain comments regarding DCCA's decision to not conduct an economic impact study for docket R98-29. No comments were received.

### DISCUSSION

#### Changes in Nonhazardous Special Waste Permitting

Under the old system, the Agency issued permits to transporters of "special waste" according to Part 809 of the Board's rules. St. of Reas. at 4-5; 35 Ill. Adm Code 809. Special waste includes hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA) and nonhazardous waste such as polychlorinated biphenyls (PCBs) and asbestos. St. of Reas. at 4; 35 Ill. Adm. Code 722.111; 415 ILCS 5/3.45 (1996).

In its proposal, the Agency requested that the Board bifurcate the regulations for transportation of hazardous and nonhazardous special waste so that Illinois' hazardous waste

regulations under the Uniform Program comply with the HMTAA. St. of Reas. at 4-5; Exh. 1 (Walters) at 10. A new Subpart J is proposed for Part 809; that Subpart includes the bulk of the Uniform Program regulations, while the remainder of Part 809 is modified to allow for the continued permitting of nonhazardous special waste transporters. St. of Reas. at 5.

The proposed rules provide that the permitting of nonhazardous special waste transporters will be conducted the same way that it was before the Uniform Program with a few exceptions to allow for consistency between the Uniform Program and the existing rules. St. of Reas. at 8. For example, language has been proposed to the rules at Section 809.204(c) so that a nonhazardous special waste transporter is afforded due process if a permit is denied, and the Agency has a procedure to follow at Section 809.204(d) if a nonhazardous special waste permit application is incomplete. *Id.*

Finally, there are two new proposed exemptions from the nonhazardous special waste transport rules at Section 809.211. *Id.* The exemptions avoid duplicate and potentially contradictory transporting requirements for transporters of potentially infectious medical waste and used tires. St. of Reas. at 8-9.

#### Uniform Program Permitting

Under the old system, the Agency permitted transporters carrying special waste that was generated in or which came through Illinois. Exh. 1 (Walters) at 4. Under the Uniform Program, those transporting hazardous waste in Illinois must have a Uniform Permit issued by the Agency. Exh. 1 (Walters) at 8. Registration of transporters is a base state system. Exh. 1 (Walters) at 2. A transporter applies to its base state for its Uniform Permit, and the base state reviews Uniform Permit applications. Exh. 1 (Walters) at 3. A transporter's base state can be where its principal place of business is located or, if the home state does not participate in the Uniform Program, the base state is where the transporter conducts a plurality of its mileage. Exh. 1 (Walters) at 2.

AWHMT points out that the Uniform Permit application places more emphasis on safety than the Agency's old permit application. PC 1 at 3-4. Specifically, the Uniform Permit application goes beyond the old application by asking transporters about their federal safety rating, previous permit denials, suspensions, and revocations. *Id.*

According to the proposed rules at Sections 809.911 and 809.912, if the Agency approves the application, the Uniform Permit will be valid for three years. Exh. 1 (Walters) at 8. Transporters will have to renew their registration every year. *Id.* If a transporter fails to renew the yearly registration, the Uniform Permit is voided. *Id.*

The Uniform Program allows the Agency to enter into agreements with federal agencies, national repositories, and other participating states in order to issue reciprocal Uniform Permits that allow a transporter to operate in all participating states. 415 ILCS 5/22.2(l-5)(5) (1996); Exh. 1 (Walters) at 3-4. As a result, an interstate transporter need only fill out one permit application, as opposed to filling out numerous permit applications under

the old system. The AWHMT notes that elimination of paperwork will be a great benefit to transporters under the Uniform Program. PC 1 at 2.

At the July 31, 1998 hearing, Anand Rao, a member of the Board's Technical Unit, asked the Agency representatives to clarify deadlines for Agency approval of Uniform Permit applications. Tr.2 at 13-15. The Agency proposed language which is included in the proposed Board rules at Sections 809.911 and 809.912. PC 2 at Errata Sheet 1-2. If the Uniform Permit application is incomplete, the Agency must notify the applicant within 90 days of receipt. *Id.* If the Agency cannot take final action within 90 days of filing a complete application, then the Agency must issue the applicant a Letter of Filing indicating compliance with the Uniform Program. *Id.* If the Agency is still unable to take final action 180 days after issuing of a Letter of Filing, the permit is deemed granted. *Id.* This same process applies to the application for the yearly registration as well. *Id.*

As of mid-July 1998, the Agency had already issued 12 to 15 of the Uniform Permits to companies whose special waste hauling permits expired July 1, 1998, or after. Tr.1 at 10. Walters reported that there had been few problems with the Uniform Permit process. *Id.*

#### Uniform Program Fees

The transporter's base state is the one responsible for collecting the fees and distributing percentages of those fees to other states participating in the program. Exh. 1 (Walters) at 2. Proposed Section 809.913 provides that the annual fee for the Uniform Permit is \$250 for any company that designates Illinois as its base state. 415 ILCS 5/22.2(1-5)(3) (1996); Exh. 1 (Walters) at 3; Tr.1 at 9. The fee is based on the costs of processing the permit. PC 1 at 2.

Section 809.914 of the proposed rules sets a \$20 annual registration fee for each vehicle owned by a company subject to a Uniform Permit. 415 ILCS 5/22.2(1-5)(3) (1996); Exh. 1 (Walters) at 3. The Agency will apportion the annual vehicle fee among Illinois and other states based on percentage of miles traveled in those states and percentage of the transporter's total activity that involves hazardous waste. *Id.* Proposed Section 809.914 dictates that annual registrations must reflect the fees for apportioned miles for each participating state. Exh. 1 (Walters) at 8. It also states that if Illinois is the base state for a transporter, the Agency will collect vehicle registration fees and distribute those fees to other states. Exh. 1 (Walters) at 4, 9. When another participating state is the base state for a transporter, that state will send the appropriate vehicle fees to Illinois. Exh. 1 (Walters) at 4.

AWHMT notes that the fee formula ensures that transporters pay fair shares for using state services. PC 1 at 3.

#### Audits and Enforcement

Audit and enforcement procedures are located in proposed Section 809.920. The Uniform Program mandates that the Agency conduct audits to ensure that transporters are accurately reporting their activity. St. of Reas. at 7. The Agency may use its existing

authority under the Act to punish transporters who do not comply *Id.* The Agency may deny, suspend, or revoke a transporter's Uniform Permit in every state by following a national standard (State Program Administrator's Manual from the National Governor's Association) which is incorporated into the Board's rules by reference in Section 809.104. *Id.*

AWHMT points out that under the old system, the Agency would issue permits to out-of-state transporters but had no authority to conduct on-site audits of those transporters. PC 1 at 3. Under the Uniform Program, the Agency can rely on a uniform auditing system that will regulate out-of-state transporters. *Id.*

### Transition Period

Section 809.919 of the proposed rules provides for a transition period. Exh. 1 (Walters) at 9. Hazardous waste transporters who have an existing Special Waste Hauling Permit will be allowed to transport hazardous waste in Illinois until June 30, 1999, or until their existing permit expires. *Id.* Hazardous Waste transporters will then have to apply for a Uniform Permit. As of July 1, 1998, Uniform Permits issued by other states are valid for transporting hazardous waste in Illinois. *Id.*

### Incorporations by Reference

A new Section 809.104 is proposed in order to incorporate by reference sections from the Code of Federal Regulations (C.F.R.) and documents published by the Alliance and the National Governors' Association. St. of Reas. at 6. The C.F.R. sections and the documents contain instructions, procedures, and background information for both regulators and the regulated community. *Id.* The C.F.R. sections and documents are available for inspection at the Clerk's Office of the Pollution Control Board.

### Public Records

At the request of AWHMT, the Section 809.105 of the proposed rules addresses the confidentiality of the information that is submitted to regulators. St. of Reas. at 6; Exh. 1 (Walters) at 7. In Illinois, the new confidentiality regulations will apply to the Uniform Program and special nonhazardous waste transporters. Information submitted to the Agency or the Board for purposes of permitting or registration can be withheld from the public if the Illinois Freedom of Information Act (5 ILCS 14 (1996)), Board rules (35 Ill. Adm. Code 120), or Agency rules allow. St. of Reas. at 6.

### CONCLUSION

The Board finds that the proposed rules meet the requirements of the HMTAA and that the Uniform Program is designed so that the new rules on the transportation of hazardous waste in the Uniform Program complement Illinois' existing rules on the transportation of special nonhazardous waste. Pursuant to Sections 27 and 28.5 of the Act (415 ILCS 5/27, 28.5 (1996)), the Board finds that the proposed rules are technically feasible and economically reasonable and adopts them as a final rule.

ORDER

The Board adopts as a final rule the following amendments to 35 Ill. Adm. Code 808, 809, and 811. The Clerk of the Board is directed to file the following proposal with the Secretary of State for publication as a final rule.

Section 809.914      Payment of Apportioned Mile Fees

- a) Beginning July 1, 1998, and annually thereafter, all transporters whose base state is Illinois shall pay registration fees to the Agency for apportioned miles for all states that are participating in the uniform registration program and in which the transporter hauls hazardous waste. The Agency shall transmit to other participating states the registration fees collected each calendar quarter on behalf of the other participating states within 30 days after the last day of the calendar quarter. A transmittal report will accompany each payment and will summarize the fees collected and list the transporters from which the fees were collected. The level of hazardous material transportation activity within a state should be calculated using the instructions in the uniform application and should be based on two factors:
- 1) The percentage of mileage in the state; and
  - 2) The percentage of the transporter's total activity that involves the transport of hazardous wastes.
- b) For Illinois, the registration fee should be calculated by multiplying the percentage of Illinois transportation by the percentage of hazardous waste transportation multiplied by the total number of vehicles the transporter operates multiplied by the \$20 registration fee set forth in Section 22.2 of the Act.
- c) A transporter should determine its percentage of Illinois transportation by dividing the number of miles it traveled in Illinois during the previous year by the number of miles it traveled nationwide during the previous year. If a transporter operates only in Illinois, it should use 100 percent of the miles traveled as its percentage of Illinois transportation. A transporter may separately calculate fees payable for each fleet the transporter operates.
- d) A transporter shall determine its percentage of hazardous waste transportation by using a method based on general percentage ranges. A transporter shall determine its percentage of hazardous waste transportation as follows:

- 1) For less-than-truckload shipments, the transporter should divide the weight of the transporter's hazardous waste shipments transported during the previous year by the total weight of all shipments transported during the previous year.
- 2) For the truckload shipments, the transporter should divide the number of shipments transported during the previous year for which placarding, marking, or manifesting was required by the Code of Federal Regulations, Title 49, Part 172, by the total number of all shipments transported during the previous year.
- 3) A transporter that transports both truckload and less-than-truckload shipments of hazardous waste should determine its percentage of hazardous waste transportation by calculating the percentage of business that is hazardous waste transportation on a proportional basis with the percentage of business that is not hazardous waste transportation.
- 4) A transporter may use data from its most recent complete fiscal year or the most recent complete calendar year in calculating the percentages required in this Subpart for transportation conducted during the previous year. If the applicant elects to change the reporting year in a subsequent application, the applicant must inform the Agency of its intention in writing.

- a) The transporter must attach or enclose with the application a certified check, cashier's check or money order payable to the Treasurer, State of Illinois in the appropriate amount.
- b) When an application is denied, any fees submitted with the application will be non-refundable. Any subsequent re-filing of the application will be considered a new application for which an application fee must be included in accordance with subsection (a) of this Section.
- c) When the Agency rejects an application because it is incomplete, any fees submitted will be non-refundable. The applicant can receive credit for the payment

with a resubmitted application if the resubmittal is complete and returned to the Agency within 30 days after the initial date-stamped rejection.

Section 809.916      Previously Permitted Transporters

- a) From July 1, 1998 until June 30, 1999, a transporter who previously obtained an Illinois Special Waste Transporter Permit is not required to obtain a uniform permit or uniform registration under this Subpart for the transportation of hazardous waste in Illinois until the transporter's special waste permit expires.
- b) Transporters with permits expiring July 1, 1998 through June 30, 1999, and whose base state is Illinois shall submit uniform registration and permit applications to the Agency and should apply 90 days in advance of the expiration date of their current permit. If the Agency cannot timely review the uniform registration and permit applications within 90 days, the current Illinois Special Waste Transportation permit will be extended by operation of law for 30 days, or until the Agency takes final action on its applications, whichever occurs first. However, if the transporter fails to submit its new uniform registration and uniform permit applications 90 days in advance of the expiration of the current permit, the current Illinois Special Waste Transporter permit will expire on the expiration date indicated in the permit.
- c) Beginning July 1, 1998, all Uniform Program permits issued by other states that have not expired or been revoked will be acceptable for the transportation of hazardous waste in Illinois.

- a) When reviewing uniform registrations or uniform permits, the Agency may impose such conditions as are necessary to satisfy the requirements of the Uniform Program set forth in this Part.
- b) The applicant may deem any conditions imposed by the Agency as a denial of the uniform registration or uniform permit for purposes of review pursuant to Section 40 of the Act.

(Source: Added at 23 Ill. Reg. \_\_\_\_\_, effective \_\_\_\_\_)

Section 809.918      Uniform Registration and Uniform Permit Revision

to federal law. The Agency will revise any uniform registration and uniform permit issued under this Part to conform with any such changes and notify the permittee in writing. Failure of the Agency to issue a revised uniform registration or uniform permit is not a defense to a violation of any changed permit condition.

Section 809.919      Transfer of Uniform Registration and Uniform Permits

No uniform registration and permit is transferable from one person to another.

(Source: Added at 23 Ill. Reg. \_\_\_\_\_, effective \_\_\_\_\_)

Section 809.920      Audits and Uniform Registration and Uniform Permit Revocation

The Agency will conduct audits to ensure that the transporter is accurately reporting its hazardous waste transportation activity. If a transporter violates any of the uniform permit conditions or fails to comply with any provisions of the Act or with any Board regulation, sanctions may be imposed as provided in the Act, including revocation of the uniform permit and uniform registration. As part of the audit process the Agency is authorized, within constitutional limitations, to do the following:

- a) Require transporters to allow Agency representatives to inspect or examine any commercial vehicle or facility operated by a transporter who transports hazardous waste in this State;
- b) Require transporters to produce papers, books, records, documents, or other evidentiary material necessary to determine if a transporter is accurately reporting its hazardous waste transportation operations and is otherwise complying with the Uniform Program; and
- c) Require transporters to allow Agency representatives to conduct investigations and audits necessary to determine if a transporter is entitled to a uniform permit or to make a suspension or revocation determination.
