

ILLINOIS POLLUTION CONTROL BOARD  
September 15, 1982

In the matter of: )  
)  
PROPOSED AMENDMENT OF PART II: )  
EMISSION STANDARDS AND LIMITATIONS ) R81-15  
FOR STATIONARY SOURCES, CHAPTER 2 )  
AIR POLLUTION REGULATIONS )

ORDER OF THE BOARD (by D. Anderson):

On April 2, 1981 Rowe Foundry and Machine Co. filed a petition for regulatory change seeking site-specific amendments to Chapter 2: Air Pollution. The proposal is related to a pending enforcement action and variance (PCB 80-174 and 81-49). During 1981 Petitioner repeatedly asked that hearings not be scheduled pending resolution of the variance and enforcement action. The merit hearing was tentatively scheduled for April 22, 1982. This was delayed until May 10, 1982, and then cancelled, both at the proponent's request. A hearing has now been tentatively scheduled for October 8, 1982. The proponent indicated in a letter to the Hearing Officer that "a hearing at this time would be premature and would interfere with resolution of a complex matter". A motion filed September 13, 1982 stated a similar position. It appears that proponent is not actually prepared to go forward with its proposal at this time. The petition is hereby dismissed. The proponent may refile at such time as it is ready to proceed.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 15<sup>th</sup> day of September, 1982 by a vote of 5-0.
