ORDER OF THE BOARD (by J.D. Dumelle):

On May 4, 1981 Texaco, Inc. filed a petition for variance extension from Rule 406 of Chapter 3: Water Pollution, regarding the ammonia nitrogen limitation.

Since the ammonia nitrogen discharged near Lockport affects the dissolved oxygen level most greatly in the area of the LaGrange Pool on the Illinois River, current data on the dissolved oxygen levels in that area should have been included in the petition.

Unless that deficiency is cured by the filing of an amended petition within 45 days of the date of this Order, the petition will be subject to dismissal.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 4^{-1} day of _______, 1981 by a vote of ______.

Christan L. Moffett, Clerk
Illinois Pollution Control Board
