

ILLINOIS POLLUTION CONTROL BOARD
March 19, 1982

IN THE MATTER OF:)
)
AMENDMENTS OF CHAPTER 3: RULE) R81-23
203(f), WATER POLLUTION, AMMONIA)
NITROGEN WATER QUALITY STANDARD)

Proposed Rule. First Notice

ORDER OF THE BOARD (by J.D. Dumelle):

On February 4, 1982 the Board entered a Proposal for Rule-making in this matter in response to the July 13, 1981 filing of an economic impact study of existing Rule 203(f) of Chapter 3, Water Pollution, and "inquiry" hearings held in response to that filing. The Board hereby instructs the Clerk of the Board to institute the first notice period on the rules proposed in the February 4 Order.

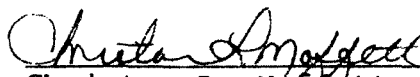

The Board is proceeding to first notice at this time in the hope of having a final rule in place by July 1, 1982 or as shortly thereafter as possible, since the exemption from the ammonia nitrogen water quality standard contained in present Rule 402.1 expires on July 1, 1982. In order to meet that date first notice must commence at least ninety days before that time.

The Board notes, however, that at least fourteen days will be allowed for comment prior to the close of record in this matter after the transcript of the final day of hearing is filed with the Board.

IT IS SO ORDERED.

D. Anderson concurred.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 19th day of March, 1982 by a vote of 4-0.

Christan L. Moffett, Clerk
Illinois Pollution Control Board
